

Rushall Primary School

Where every child sky rockets!

My Enrichment Book

Our ***Enrichment Book*** is a special place where our children can extend their knowledge and creativity in their very own special way.

Home research is very important in enabling children to learn new things and present new knowledge and ideas in many different ways, e.g. art work, photographs, fact-files, diary entries, to name but a few creative ways of recording work.

It is important that children can share their love of learning with their family and friends. It would make it extremely special if family and friends could be involved and contribute with enrichment work. We see the ***Enrichment Book*** as being a wonderful opportunity for children to share their lovely ideas and work; a diary/journal, showcasing children's extended learning!

Throughout the school year, Teachers will set learning enrichment tasks, some of which can be recorded in this special book. In addition, children will be actively encouraged to work independently to research and find out new knowledge or experiment with new ideas based on our creative thematic curriculum.

Children will be inspired to be creative in their presentation of a task to reflect their learning style. Sometimes children may paint a picture, collect samples, make models, make a fact file, etc. On occasions where the work cannot be included in this book, we can take photographs to ensure we capture the detail, time and creativity of their efforts, e.g. models, etc.

And finally...

"Tell me and I forget. Teach me and I
remember.

Involve me and I learn"

Benjamin Franklin
