Duracell Big Battery Hunt

Dear Parents,

Your child has brought home a Duracell cardboard box which is for recycling old batteries in. The idea is that they collect as many used batteries at home – and from friends and family – then return them to school in the box and place them in our recycling container. This will be positioned by the main school office.

The container will be collected at the end of April and school can win prizes for the children to use in school:

- A 3-day visit for one class to the Sustainability Centre
- iPads
- a 3-year subscription to MyMaths for school
- Duracell bunny soft toys

I hope that we can collect lots of batteries that can be recycled safely. Thank you for taking part in the Big Battery Hunt!

Yours sincerely,

Mrs P Liversidge
Deputy Headteacher
