

As Mathematicians we will be...

- Looking at timetables
- Finding properties of circles
- Calculating angles and pie charts
- Calculating ratios
- Working with fractions, decimals and percentages
- Applying our knowledge of maths to reasoning and problem solving questions.

# North and South

# America

As readers and writers we will be...

- Developing our inference skills through comprehension.
- Writing a newspaper article.
- Writing a persuasive leaflet based on North and South America.

As scientists we will be...

- Naming the main parts of the human circulatory system.
- Describe the functions of the heart, blood vessels and blood.
- Planning and conducting experiments in order to work scientifically.

## Things to Remember

Monday	Dinner money PE kit (indoor and outdoor)
Tuesday	
Wednesday	PE kit (indoor and outdoor) Homework due in Spellings due in
Thursday	
Friday	Homework handed out. Spellings handed out.

At home I could...

- Go on [www.mathletics.com](http://www.mathletics.com) to practise my maths skills.
- Read my reading book for 10 minutes **every day** and answer questions about what I have read.
- Make sure I know ALL my times tables up to 12x and their division equivalents.
