

Toileting

From nursery we expect all children to be toilet trained. This means

- Managing their own clothes at toilet time
- Cleaning their own bottoms
- Flushing the toilet
- Washing and drying hands

It is our aim that each child feels, safe and comfortable during their play in order to achieve their maximum learning potential.

In the event of an accident

Accidents do happen, if this occurs we expect parents to come to the nursery to change their own child's clothes.

If a parent cannot be contacted and/or the child is in obvious distress the nursery staff will assist the child in line with our intimate care policy.

If a child is not toilet trained

A child with a medical condition who is not toilet trained can still gain entry to nursery.

If a child is not toilet trained they will stay for a reduced amount of time and the parents will remain on the premises to change nappies or clothes as required.
