

Computing

We have a great range of devices in school that are readily available for all children. Some of the devices that we have in school are;

- iPads
- Laptops
- Programmable Robots
- Digital Cameras
- Interactive Touch Screens in every room.

Foundation Stage children have a broad, play-based experience of Information technology (IT) in a range of contexts, including a variety of equipment and outdoor play. We also use recording devices to support children to develop their communication skills.

Key Stage 1 and Key Stage 2 children are taught Computing skills by using the Rising Star Computing Schemes of work.

Online-Safety is an essential part of learning at Guilsborough C of E Primary School and the students are constantly reminded of how to stay safe online and in the virtual world. If they have any concerns they are also taught how to report them appropriately. We recognise the importance of Computing and the need to stay safe online. All pupils take part in regular Online Safety sessions to learn how to use technology safely and respectfully, keeping personal information private; know where to go for help and support when they have concerns about material on the internet.
