Scaled cores are an interpretation of the children's results. A score of 100 represents the average level for attainment and/or Age Related Expectations(ARE) for the cohort.

Progress

Progress measures this year have been difficult to establish for children in Year 6 as they left KS1 with a level which is no longer compatible with ARE. Therefore, the DFE have defined a score of "0" in all subjects as a national average. The progress scale is from -10 to 10 though as an example 50% of school sin reading with fall between -1.8 and 2.8. In writing, 50% will fall between -4.6 and -0.2 and in maths, the relative figure is -1.9 and 2.3. It is important to understand that negative scores do not mean that the children have not made progress but rather in comparison to other schools nationally they made less progress.
