1. POLICY STATEMENT

- 1.1 Devon County Council recognises and accepts its legal duties and responsibilities under the Health and Safety at Work etc. Act 1974 and all subsidiary legislation, to manage the risks associated with Loneworking.
- 1.2 These duties and responsibilities require the Authority to ensure so far as is reasonably practicable, that:
- Employees who are required to work alone or unsupervised are protected from risks to their health and safety
 - The risk to employees' health and safety are identified by suitable and sufficient risk assessments and, where appropriate, by the introduction of control measures to eliminate the risks or reduce the risks to an acceptable level within statutory requirements
 - Employees who believe themselves to be in serious or imminent danger and, for reason of their own or another person's safety, remove themselves to a place of safety, will be supported by the Council
 - Employees must be suitably trained before being expected to work alone
- 1.3 This policy must be read in conjunction with HS31 Loneworking and HS41 Personal Safety Arrangements documents.
- 1.4 The aim of this policy is to reduce the risks towards Devon County Council staff when working alone. The associated arrangements documents are designed to be as comprehensive as possible but, inevitably, they cannot cater for every situation that may occur within a working environment.
- 1.5 With this in mind, they should be used as a basis from which local procedures and systems to protect Lone Workers are developed, revised or enhanced – but which, in addition, reflects the local needs of staff and environments within which they have to work.

2. CONTEXT

The Management of Health and Safety at Work Regulations 1999

- 2.1 These regulations, places a duty on the Council to make an assessment of the risks involved with all work activities.
- 2.2 In some cases the law requires that at least two people must be involved in certain working circumstances and specifies the safe systems to be followed,

e.g., working in confined spaces, working on live electrical systems, working at heights and some moving and handling tasks etc.

- 2.3 The risk assessment carried out on all lone working tasks may also identify the need for two workers to ensure a safe system of work. The law may also stipulate supervision to be provided e.g.: for young people, trainees and new staff.
- 2.4 This policy is intended to complement the Devon County Council's Health & Safety Policy

3. ELIGIBILITY AND SCOPE

Defined Working Limits

- 3.1 Managers and supervisors, with input from frontline staff and lone workers, are to establish clear procedures to set limits of what can and cannot be done whilst working alone. Clearly this is impossible to define in specific terms but the general precautions principle of, "if in doubt, ask your manager or supervisor", is advocated.

Application

- 3.2 This policy applies to all staff working for Devon County Council including those on temporary or honorary contracts, those working mainly for other organisations but on Council premises and visitors on the Council's behalf.

4. RESPONSIBILITIES

- 4.1 The **Chief Executive, Chief Officers and Heads of Service** are responsible for ensuring that this policy is implemented and managed effectively in accordance with the DCC Health & Safety Policy. This accountability cannot be discharged by delegation.
- 4.2 **Senior Management** of the business unit, school, home or service are responsible for ensuring that more specific procedures for lone working are developed where appropriate, that the necessary training is available and attended, and that required safety measures are resourced. When this cannot occur, measures such as 'doubling up' of staff, or delaying visits or tasks, will need to be considered.
- 4.2 They are to monitor the effectiveness of measures implemented as a result of the risk assessment process to find out how successful they have been. This will allow managers to identify those control measures and strategies that are not

working, or which have unforeseen consequences, and modify them where appropriate. This can be achieved by:

- Managers checking that systems and procedures are working, without waiting until something goes wrong
- Managers investigating all incidents and near misses so that everyone involved can learn from the experience. However, managers will not be able to investigate unless there is an effective reporting and recording system, which is understood and supported by all

4.3 **Line Managers are responsible for ensuring that:**

- Suitable and sufficient risk assessments are carried out to consider the potential hazards and risks to which the Lone Worker may be exposed. This assessment will include the task involved, the working conditions, the environment, equipment, any substances being used, the time and any members of the public that the employee may encounter or is visiting
- Assessing the physical and mental capability of the staff member to carry out lone working in respect of experience, training, physical state (i.e. being pregnant or suffering from any medical condition that could place themselves or others at risk)
- The person concerned has received sufficient information and training and is provided with all of the necessary tools and protective equipment and clothing, e.g. disposable gloves, head/eye protection, fluorescent and/or waterproof clothing and gloves
- Emergency arrangements are in place and known to all relevant staff

4.4 **Employees who work alone need to:**

- Ensure that someone knows their location or itinerary, including the vehicle being used, and their expected time of return
- Ensure they use the signing in/out arrangements at their place of work
- Inform appropriately of unexpected changes of plans
- Comply with signing in/out arrangements at all sites visited
- Always report any incidents or potential hazards. Report any breakages or damage to protective equipment
- Comply with safe working practices/procedures, giving input to updating risk assessments especially if changes are made which increase the risk

Partnership Working

- 4.5 Staff working in partnership organisation premises must have the full back-up and protection of their lone working procedures, in consultation with the Council, to a sufficient standard for there to be emergency contact if the employee requests or requires it or goes missing. If the DCC lone working procedures are

of a higher standard than the partnership organisations, the Council's procedures are to be followed.

- 4.6 The Devon Health & Safety Panel are responsible for the development of this policy and for monitoring its implementation.

5. IMPLEMENTATION

- 5.1 This policy applies to all services within Devon County Council. Services must ensure that those with responsibilities under this policy:

- Are trained to an appropriate level
- Have access to competent advice and support
- Have access to the resources necessary to meet the issues identified
- Have sufficient time allocated to carry out the necessary tasks associated with this policy

6. AUDIT, MONITOR AND REVIEW

- 6.1 All Services within Devon County Council must be able to demonstrate compliance with this policy in accordance with Devon County Council health and safety auditing procedures. The Devon Health & Safety Service is responsible for monitoring the effectiveness of arrangements within services.
- 6.2 Incidents will be reported to the relevant Health and Safety Adviser and annually to the Devon Health, Safety and Well-being Board. Effectiveness of this policy can be measured by continuous low prevalence or increasingly lower prevalence over time, of incidents involving lone workers.
- 6.3 The review of policies, procedures and systems has been emphasised but, finally, the protection of Lone Workers is reliant upon managers, staff, colleagues and Lone Workers knowing, understanding and complying with local safe systems of work that has been issued.

7. EQUALITY STATEMENT

- 7.1 The Council will only commit to policies and practices which will eradicate discrimination and promote equality for all, regardless of age, gender, disability, religion and belief, race and ethnicity and sexual orientation.
- 7.2 This policy and related guidance has been subject of an Equality Impact and Needs Assessment. This assessment will be integral to all future policy and guidance reviews.

8. REVIEW OF THE POLICY

8.1 The Devon Health, Safety and Well-being Board will review this Policy every two years or sooner if changes are made to current legislation.
