## **Pupil Privacy Notice**

### **Privacy Notice (How we use pupil information)**

#### **Why do we collect and use pupil information?**

Section 537A of the Education Act 1996 requires schools to collect and provide any such individual pupil information as may be prescribed. This includes sharing of a set of named pupil records through the submission of termly school census returns to the local authority and DfE,

Putting the school census on a statutory basis:

- means that schools do not need to obtain parental or pupil consent to the provision of information
- ensures schools are protected from any legal challenge that they are breaching a duty of confidence to pupils
- helps to ensure that returns are completed by schools

We also collect and share individual pupil information with the local authority - including attendance and exclusions data- each week. This is supported under The Education (Pupil Registration) (England) Regulations 2006 Regulation 12; Children's Act 2004 Section 10: co-operation to improve wellbeing; Children's Act 2004 Section 11: arrangement to safeguard and promote welfare; Education and Inspections Act 2006 Section 38 and Working together to safeguard children March 2013 Guidance.

This information is used by the local authority to fulfil a number of statutory duties:

- to ensure there are sufficient school places in the area
- promote high education standards
- ensure fair access to educational opportunity and promote the fulfilment of every child's educational potential
- the need to meet the local authority's safeguarding requirements
- to facilitate the ability of partner organisations to support the learning and welfare of children and young people through the exchange of data and the use of information not otherwise available to either organisation.

For more information on how the local authority uses information we share with them go to <http://liverpool.gov.uk/schools-and-learning/requests-for-pupil-records/>

We also use pupil data:

- to support pupil learning
- to monitor and report on pupil progress
- to provide appropriate pastoral care
- to assess the quality of our services
- to comply with the law regarding data sharing
- emergency contact details whilst out on school trips & visits

### **The National Pupil Database (NPD)**

The NPD is owned and managed by the Department for Education and contains information about pupils in schools in England. It provides invaluable evidence on educational performance to inform independent research, as well as studies commissioned by the Department. It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies.

We are required by law, to provide information about our pupils to the DfE as part of statutory data collections such as the school census and early years' census. Some of this information is then stored in the NPD. The law that allows this is the Education (Information About Individual Pupils) (England) Regulations 2013.

To find out more about the pupil information we share with the department, for the purpose of data collections, go to <https://www.gov.uk/education/data-collection-and-censuses-for-schools>.

The department may share information about our pupils from the NPD with third parties who promote the education or well-being of children in England by:

- conducting research or analysis
- producing statistics
- providing information, advice or guidance

The Department has robust processes in place to ensure the confidentiality of our data is maintained and there are stringent controls in place regarding access and use of the data. Decisions on whether DfE releases data to third parties are subject to a strict approval process and based on a detailed assessment of:

- who is requesting the data
- the purpose for which it is required
- the level and sensitivity of data requested: and
- the arrangements in place to store and handle the data

To be granted access to pupil information, organisations must comply with strict terms and conditions covering the confidentiality and handling of the data, security arrangements and retention and use of the data.
