

Definition: The SEND Code of Practice 0 to 25 Years (DfE, 2014) says children have a learning difficulty or disability if they:

- a) have a significantly greater difficulty in learning than the majority of children of the same age:
 - b) have a disability which either prevents or hinders them from making use of educational facilities of a kind generally provided for children of the same age in schools within the area of the local education authority.
-

Children must not be regarded as having a learning disability solely because the language or form of language of their home is different from the language in which they will be taught.
