

East Riding of Yorkshire Council

Anlaby Primary School

'Ambitious, Proud, Successful'

Whole School Attendance

95% - Requires Improvement
Well done to Walliams who had an attendance of 99% and Inkpen who had an attendance of 100%!
They will get an extra five minutes playtime.
Well done them!
The Anla-Bee challenge will be rolled over to next week due to Sports Day.

NEWSLETTER 14th June 2018

This Week

Rosen and Inkpen spent last week practising for sports day and this week found some snails in the garden and decided to hold a snails' sports day! I think they are still waiting for the results!

In Year 1 Sharratt and Donaldson have been comparing the Brazilian and British flags and looking at the symbolism involved. In maths they have been looking at money.

Ahlberg and Potter have been learning about how to organise and use data in maths. They have learnt about tally charts and pictograms.

Dahl and Murphy have been looking at the pollution that is often found in rivers and what can be done about it. They are now planning a newspaper report to highlight the problem.

Kinney and Morpurgo have been looking at money and how it can be used to provide for our needs and wants. They have identified what they want and what they need and found that many of their wants are not needs!

Herge and Walliams have been looking at Henry VIII's wives and learning the old rhyme divorced, beheaded, died, divorced, beheaded, survived. Although for the sake of accuracy he never actually divorced anybody, his marriages were annulled!

Shakespeare and Rowling have been involved in a STEM project namely making slippers. They have had to design, plan an approach to making them, make them and will evaluate them!

Have a great weekend.

Sponsored Run

Our sponsored run, despite the strong wind and the occasional shower, was a great success. All the children enjoyed taking part and it was great to see them challenging themselves to do that extra lap alongside their peers.

Also a big well done to the teachers for joining in including Miss Davies who ran a lap whilst pushing Skye in her wheelchair!

We would like to thank you for all the sponsored donations received so far and remember if you still want to sponsor your child for the great job they did on the day, it is not too late to do so.

Once we have collected and counted all of the donations, we will let you know how much has been raised and then the children will decide how they are going to use the money to support them in school.

Financial Awareness Day

The children had a great day on Thursday as they looked at financial awareness. Mrs Brannon did a whole school assembly to look at the topic then all the children did something in their classes to think about how important money is and how to look after it!

Focusing in on what they need as opposed to what they want was very interesting especially when they only have a limited budget to plan with!

Lunch Menu W/C: 18th June 2018

Chicken Pizza	Roast Chicken	Meatballs in	Roast Ham	Fish Fingers
Cheese Pizza (V)	Quorn Fillet (V)	Tomato Sauce	Quorn Sausage (V)	Vegetable Nuggets

& Fruit	+++	+++	Cauliflower	+++
	Chocolate Cookie	Chocolate Crackle	+ Iced Lemmon	Shortcake
	& Orange Wedges		Sponge & Custard	& Custard

Did You Know?

The World Cup in 2018 will mark the first time Russia has ever hosted this event.

The 2018 World Cup will be Russia's 11th World Cup appearance. Their highest ever finish was 4th place in 1966.

3.2 billion people tuned in to watch the 2014 World Cup. Brazil holds the most titles with five.

Date for your Diary

In order to try to give you as much notice as possible regarding events around school, this section will be dates for up-coming events. We may need to change events at times but will try to keep this to a minimum.

Friday 22nd June - Y5 trip to Sirius
18th – 22nd June – Year 6 Residential
Friday 15th June – Sports Day
Saturday 23rd June – PTA Summer Fair
Wednesday 27th June – Haltemprice Sports
Tuesday 3rd July - Whole School Maths day
Friday 13th July – Reports to go out to parents
Tuesday 17th July – Transition morning
Wednesday 18th July – Celebration Evening
Thursday 19th July – PTA Y6 Leavers Disco
Friday 20th July – Year 6 Leavers Assembly

Did You Know?

The oldest goal scorer in the World Cup was Roger Milla, who was 42 in 1994 when he scored a goal for Cameroon against Russia.

It is rumoured that India withdrew from the 1950 tournament as they were not allowed to play barefoot!

The first World Cup was played in 1930. Uruguay was both the host and winner.

A Guide to Helping your child (age 8 – 11) with Mathematics

Everyday situations:

- Weighing, measuring capacity and timing when cooking. Converting a recipe for 4 people to one for 6 people.
- Being involved with measuring and calculating how much curtain fabric is needed, how much wood for shelves, how many wall or floor tiles are needed, how much carpet etc.
- Talking about time, e.g. How long is it until lunch time? The journey takes 2½ hours, when will we arrive? We need to be there at 2.00 pm, when do we need to leave home? Many children will still need practice with reading clock times, particularly minutes past and minutes to the hour.
- Handling amounts of money when shopping, working out total costs, working out change, checking receipts. Working out prices of sale items, e.g. 20% off. Managing pocket money and saving for things.
- Working out distances and directions from maps.
- Discussing and comparing house prices from newspaper house sales pages.
- Working out how much petrol will be used on a journey, working out average speed for a journey, costing journeys or holidays etc.

Play activities/games:

- Card games such as sevens, cribbage, pontoon etc.
- Any games involving calculating scores, e.g. scrabble, quoits, darts, bowling.
- Beat the calculator. In pairs, one with a calculator, one without, each works out the answer to a calculation aiming for the one without the calculator to say the answer first.
- Games involving strategic thinking/logic, e.g. draughts, chess, mastermind.
- Specialised computer games designed for using and developing maths.
- Using the mad4maths website!

Whatever you do, make sure your children enjoy it.

I would like Mr May to know...
