

## **School Sports Partnership**

Through membership of the East Riding School Sports Partnership (West), All Saints' is part of a strong network of schools and partners which provides sporting opportunities for all. Additionally, through the network the partnership offers teachers a selection of training courses, whole school training, one to one support and guidance, school resources, and coaching in schools.

Impact of membership for All Saints':

Competitions entered this year:

- 7-a-side Football Tournament
- Sportshall Athletics
- Swimming Gala (new for this year)
- Rock Challenge (new for this year)
- Orienteering - 3 pairs from Year 5 progressed to the Level 2 Orienteering competition at Cottingham High where they came first. They now progress to the Humber Games finals at Hymers College in July.
- TAG Rugby Festival

This year, we have seen an increased pupil participation in competitive sports which has also led to an increase in staff participation in attending competitive sport events. As well as the PE Co-ordinator organising and attending competitions, two other teachers have been involved in this aspect of school sport. It is envisaged that in the next academic year, more staff will become involved in providing extra-curricular sporting activities, leading to more competitions being entered by the school.

Through the Partnership, Year 5 were able to take part in a multi skills afternoon, which was followed by a whole staff CPD session on multi skills activities. Staff were keen to use ideas from the training session in their own lessons.

When applying for the School Games Mark, support is provided by the Partnership. Last year, All Saints' gained a Bronze School Games mark. This year, through increased participation in extra-curricular activities and competitions, we are hoping to gain a Silver School Games mark.

## **Primary Steps in PE Scheme of Work**

The new PE Scheme of Work purchased by the school through the Sport Premium Funding has only been used by staff for half a term and so it is too soon to see the impact on teaching and learning. Lesson plans are easy to use and provide a wide range of skills-based activities which enables the children to improve their skills and understanding of sport as a whole, ensuring that they have the fundamental skills and a base of knowledge which they can build on.
