<b>Welcome / purpose</b>	Miss Hill explained that we were going to review the new collective worship monitoring forms with the changes we made last time to see if we thought they were more effective or not.	Continue filling out the monitoring sheets
<b>Patterns noted</b>	<ul style="list-style-type: none"> <li>• Service monitors found it difficult to fill in the reflection box as they found out that a lot of staff didn't give the children anything specific to reflect on.</li> <li>• They felt that it was a good idea to change the improvements box to how the adults could improve the worship rather than children.</li> <li>• They feel like behaviour has improved since they have started handing out dojos and feel more involved as it gives them a job to do whilst they are sat at the front.</li> </ul>	<p>They felt that it would be good for all staff to give children an extra few minutes at the start of collective worship to reflect as the classes that come in last don't always have much time to. Then for staff to ask a few children if they would mind sharing their reflection with the rest of the school.</p> <p>They felt that whilst they came up with some points for improvement they didn't get chance to let the member of staff know. We will keep the monitoring sheets in a folder by the CD player for staff to be able to access easily.</p> <p>We will carry on choosing 5 children each to hand out dojos to.</p>
