	To provide sporting opportunities for children to engage and be successful this year in an attempt to raise their self-esteem.				challenging behaviour when faced with academic tasks but thrive when participating in sporting activities) to engage and be successful this year in an attempt to raise their self-esteem.
Advanced swimming lessons for 5/6 G&T children	To provide G&T children with high quality swimming sessions enabling them to further develop their swimming skills to enable them to reach their full potential.	Paying for an additional specialist swimming instructor to deliver high quality swimming sessions that are planned and delivered at a high standard, working hard to increase the quality of the learning and standards of our G and T children.	£428.50 cost of an additional swimming coach, synchronized swimming coach and the hire of the diving pool.	Invoice Feedback from children/teachers	Will enable G&T children attending to learn and further progress in swimming.

How will ensure sustainable improvement? We will evaluate the impact of the Sports Premium funding at the end of each academic year. We will identify how well we have used our Sports Premium funding to inspire our community through monitoring of a wealth of physical opportunities, monitoring the involvement in sport related activities and by measuring the performance levels of all of our children. Measuring the impact of the experiences provided through the Sports Premium funding can be achieved in a variety of ways. We will focus on the children's self-esteem and confidence levels as well as monitoring the numbers of children involved in sporting activities in and out of school. Assessments are made both formally and informally. Feedback from staff, children and families will support the progress we have made. It is anticipated that at the end of the year we will have some measurable data to show the impact of Sports Premium funding on pupil progress and involvement in sport.

Through my monitoring, as PE leader, it is evident that the progress of children in PE is improving with an increase in children that achieved the expected or exceeding level in PE, across all year groups. With the statutory requirements of the new National Curriculum it is vital that this progress continues on an upward trend and I will ensure that staff are supported as required. We will work hard to ensure the sporting activities

that have taken place this year (which have had a greater impact on the children's overall physical development - both fine and gross motor) will continue in the next academic year. We will also ensure there are a range of courses available for our teachers to partake in to further develop their teaching and the school PE equipment is regularly monitored and updated.
