Head of School: Ms Stella Porter

28th June 2018

Dear Parent/Carer,

As part of our Relationships / Health and Fitness Education Programme, the children will be watching the Channel 4 'Living and Growing' DVD – a programme that has been used successfully in many schools nationally and is recommended for use by the Greenwich Local Authority. This programme covers the Science curriculum that includes the biological aspects of Sex and Relationship Education –SRE (body parts, conception and puberty and so on.)

At Hawksmoor, we feel that these aspects of SRE are just as important as the Science - biological content .The school nurse supports in delivering the programme in Years 5 and 6 and extend their sessions to include the topic of Personal Hygiene too.

The programme covers age-appropriate information about relationships. If you have any concerns or wish to preview the programme that your child will watch, please speak to your child's class teacher or Miss Williams (Falcons 3 class teacher and PSHE Lead) by Monday, 2nd July.

For your information, below is a table of the programme for each year group:

<u>Year Group</u>	<u>Topic</u>
2	Programme 1: Differences
3	Programme 2: How did I get here?
4	Programme 3: Growing Up
5	Programme 4: Changes
6	Programme 5: How Babies Are Made Programme 6: How Babies Are Born

Yours sincerely

Ms Stella Porter
Head of School
