

Computer Safety Committee

Meeting – Friday 19.05.17

Present: Sharron O’Keefe, Kay O’Neill, Lauren Oglesby, Amy, James, Tyler, Alex, Katie, Benjamin, Greta, Adam, Kyle

Absent: Geoff Ogden, Dave Syrett, Harrison, Alfie, Ryan

Agenda

Items from previous meeting

- Letter to HDM and Grapevine/East Riding News – details sent by Sharron
Press release sent to the Press officer at the East Riding Council and brief article included in Grapevine
- More laptops
Sharron to speak to Lesley about this
- Use of passwords to allow older students greater access to YouTube
Sharron has spoken to theonepoint and some sixth form students are to have their own personal log-in which they can use to access the school computers now. Unfortunately, as we still have part of a contract with PrimaryTec the students will not have access to YouTube, at the moment. This should hopefully be sorted after Monday but will check with theonepoint next Friday so it is ready for after half term.
- Getting ready for the e-safety assessor
We will be going for our accreditation next year
- Videos made to advertise e-safety – younger students showing how to use Hector and older students not sharing details etc – Sharron and Dave and e-safety committee
Sharron has been on course and has discovered very easy way to make video using Adobe Spark
Discussion of outline of content – ask before you click
Sharron to see groups of members at lunchtimes to do work but will avoid lunchtime clubs. Adam can only make Fridays due to timetabling
Adam thinks that we need different safety videos appropriate for Lower School, Upper School and Sixth Form. Sharron agreed but suggested that we make one before deciding on others

AOB

- Sharron suggested changing the name of the committee from the e-safety committee to the online safety committee to stop confusion with the eco-committee and to link with changes that mean the e-safety mark is now the online safety mark

Adam said that he preferred the name computer safety committee and after a vote it was carried 7/5 in favour of Adam's suggestion so it is now The Computer Safety Committee

- Sharron to check with Katherine that 6th form students have signed their Acceptable Use Policies before they are allowed individual log-ins and greater freedom to the internet

To be discussed at next meeting

- Getting ready for Safer Internet Day 2018
- Thinking about inviting people from outside school to talk to us about online safety

Date of next meeting: Friday 03.11.17
