

Let's Play Development 1

Personal and social skills

- To develop interaction and social skills

Tips -

- Anticipation - helping your child understand that something will happen next.
- Peek a boo games. Place the scarf on your face. Take your child's hand to the scarf and pull it off together. Praise your child.
- Learning to Wave - At first, help your child to wave by moving their hand. Next – when you wave give your child time to try to copy you. You can remind your child by gently touching their fingers and waiting for a response.
