

Let's Play Development 1

Creative – expressive arts and design

To experience a range of creative materials

- Listen to songs and rhymes – sit in front of your child and sing familiar songs and rhymes. Try to pause it at a favourite part of the song – e.g. the tickle part in 'round and round the garden' for a few seconds, giving your child time to respond with a vocal sound or word.
- Play music at home for you and your child. Shake or move your body to the beat (showing your child what to do).
- Let your child play with dough, sand and water. This could be in a bowl, with sponges, pasta or fabrics such as a stretchy material. Play with your child putting your hands in the water or dough to show your child what do.
