Wednesday 14th February 2018

Dear Parents/Carers,

Did you know that over the years we have **raised over £800** through **recycling biscuit wrappers, pens, coffee pods** and a range of other items? So well done to our regular supporters and time to get in to the recycling habit if you have not done so yet.

We do have to announce some changes though as sadly from the end of March the Tassimo coffee pods are now going to be recycled at PlayWorks, St Ann's, NG3 1AE and so we will **no longer be able to recycle them** through school. Please recycle them at St Ann's if you can but we will no longer receive any money through Terracycle for this. Please continue to recycle your **Tassimo Coffee pods with us until Friday 23rd March** as we will be able to send them off and reclaim money until then. This will be the **last date** that we can accept them though.

However we **can still recycle old pens, cleaning products and biscuit wrappers** so please continue to collect those! Please make sure they are securely bagged up and sorted in **to separate bags** e.g. one bag for pens, one for biscuit wrappers. This will greatly help Mrs Goodyear who very kindly sends the items off for us.

Please note we also **no longer recycle yoghurt pots** through Terracycle but you can recycle in your home green recycling wheelie bin or you could give to your child's class teacher for use in box modelling at school. Do not place in the terracycle wheelie bin that we have in our recycling centre.

Please also continue to support all our other campaigns. We recycle **Stamps** – used, unused, UK or foreign. Please cut or gently tear from the envelope and collect in another envelope until you feel you have enough to bring in. We send these off to support the **RNIB** campaign. We also recycle **unused glasses/spectacles** - (We collect for **Vision Aid Over seas** which can recycle or re-use the glasses in developing countries). You can also place **bagged clothes and shoes** in the **Children's air ambulance collection bank** next to the portakabin in the school grounds.

Terracycle items can be placed in the **Terracycle wheelie bin** next to the portakabin. Stamps and glasses should be put in to the green eco bin opposite the office.

Finally if you have any **large, strong boxes** -e.g. old printer boxes then please drop off at school so we can use them to box up and send off all the recycling.

Many thanks!
The Eco Team

P.S. Please also look at the **attached recycling flyer** to see a summary of all we recycle.
