Early Help and Prevention Services will be taking over delivery of some groups, clinics and courses currently delivered in this cluster. During this transition period we may be reducing the groups we offer and therefore this timetable may change.

WRAP Wellness Recovery Action Plan - this course promotes health, self-management and empowers you to shape your experiences, achieve life goals/dreams, improve quality of life and resilience. This is a course for people who would like to build positive mental health and well-being.

Family Links Nurturing Course This course aims to help parents understand and manage feelings and behaviour and become more positive and nurturing in their relationships with their children and each other. It encourages an approach to relationships that gives everyone an emotionally healthy start for their lives and learning. Come along to this course and learn new ways to support and look after yourself and your family.

HENRY – (Health Exercise and Nutrition for the Really Young) Our Henry course supports parents/carers to gain the confidence, knowledge and skills in order to help the whole family adopt a healthier happier lifestyle. This course has a family time section where you have the chance to practice some of the things that you have been learning about, including sharing healthy food and playing family games.

If you would like to come to any of our courses please ring our Admin team at Strong Close and put your name down on our waiting list. We will then ring you and let you know when the next course is running.

Courses for Parents and Carers
