

Residents Meeting

Date:	05.07.2018
Young People who attended:	Mark Chloe Ohene Reece Al Kyle
Children's Rights Officer attended?	Becky Hunt

What we discussed:

North Ferriby Parish Council – A group of young people have been asked by the Parish Council to attend the park and to give their opinion on the park. Becky (Children's Rights Officer) put together some questions to make this easier for the young people, these included:

- What do you like about the park?
- What don't you like about the park?
- What would make the park better?

The Parish Council also asked the young people to give their opinion on what roundabout design would be the best.

Young People's Views:

Parish Council – North Ferriby Park

What do you like about the park?

The young people said that they liked the park because it has lots of different equipment, plenty of grass for sitting and having picnics on, seats and benches around the park. The young people also said that the park has plenty of litter bins; it was safe for people to go into the park as it was fenced round the perimeter.

What don't you like about the park?

The young people said that the path was not suitable for members of the public who have either mobility issues or have to use a wheelchair.

What would make the park better?

The young people said that having an ice cream van at the park on busy occasions would be nice, more seating areas and more equipment for children to play on. Kyle mentioned that there should be a picnic bench near the skate park.

Roundabout design

The young people looked at 3 designs that are being considered by the Parish Council, Reece, Chloe and Kyle chose option 2 because its bright coloured and is bigger than the other designs. Ohene and Mark chose option 1.

Outcome (To be completed when actioned)

North Ferriby Park

Kay (Child Care Manager) will pass on all comments that the young people have made regarding the park to the Parish Council and will ask the Parish Council to inform Kay so then she can pass it on to the Residence Council if any changes are made to the park.
