Once our students reach the age of 13, we are legally required to pass on certain information to our Local Education Authority, which has responsibilities in relation to the education or training of 13-19 year-olds. Parents, or students, if aged 16 or over, can request that only their name, address and date of birth be passed to the Local Authority by informing the Business Manager.

We are required, by law, to pass certain information about students to specified external bodies, such as the BAET, Local Authority and the Department for Education, so that they are able to meet their statutory obligations.

8. Subject access requests

Under the Data Protection Act 1998, and The General Data Protection Regulations 2018, students and staff have a right to request access to information the school holds about them. This is known as a subject access request. Subject access requests must be submitted in writing, using the form available on the website

The school will not reveal the following information in response to subject access requests:

- Information that might cause serious harm to the physical or mental health of the student or another individual
- Information that would reveal that the student/staff is at risk of abuse, where disclosure of that information would not be in their best interests
- Information contained in adoption and parental order records
- Certain information given to a court in proceedings concerning the student/staff member

Subject access requests for all or part of a student's educational record will be provided within one month. Completed forms should be forwarded to enquiries@baet.org.uk

9. Parental requests to view Educational Records

Parents have the right of access to their child's educational record, free of charge, within one month of a request.

Personal data about a child belongs to that child, and not the child's parents. This is the case even where a child is too young to understand the implications of subject access rights. For a parent to make a subject access request, the child must either be unable to understand their rights and the implications of a subject access request, or have given their consent.

The Information Commissioner's Office, the organisation that upholds information rights, generally regards children aged 12 and above as mature enough to understand their rights and the implications of a subject access request. Therefore, most subject access requests from parents of students at our school may not be granted without the express permission of the student.

Parents of students at this school do not have an automatic right to access their child's educational record. The school will decide on a case-by-case basis whether to grant such requests, and we will bear in mind guidance issued from time to time from the Information Commissioner's Office (the organisation that upholds information rights).

10. Storage of records

- Paper-based records that contain personal information are kept under lock and key when not in use
- Papers containing confidential personal information should not be left on office and classroom desks, on staffroom tables or pinned to noticeboards where there is general access
- Where personal information needs to be taken off-site (in paper or electronic form), staff must ensure it is secure and in their possession at all times
- Passwords containing letters and numbers are used to access school computers, laptops and other electronic devices. Staff and students are reminded to change their passwords at regular intervals

- Encryption software is used to protect all portable devices and removable media, such as laptops and USB devices
- Staff, students or governors who store personal information on their personal devices are expected to follow the same security procedures for school-owned equipment

11. Disposal of records

Personal information that is no longer needed, or has become inaccurate or out of date, is disposed of securely. For example, we will shred or incinerate paper-based records, and override electronic files. We may also use an outside company to safely dispose of electronic records.

12. Training

Our staff and governors are provided with data protection training as part of their induction process. Data protection will also form part of continuing professional development, where changes to legislation or the school's processes make it necessary.

All staff are expected to adhere to these guidelines:

- **ALWAYS USE STRONG PASSWORDS**
- **ENCRYPT EMAILS CONTAINING DATA OR SEND VIA 'OneDrive'**
- **LOCK YOUR COMPUTER SCREEN BEFORE YOU WALK AWAY**
- **MAKE SURE YOUR ANTI-VIRUS SOFTWARE IS UP TO DATE**
- **ENSURE SECURITY OF UNPROTECTED DATA TAKEN OUT OF SCHOOL**
- **ONLY USE ENCRYPTED MEMORY CARDS AND USB STICKS**
- **PAPER-BASED DATA - COVER IT! LOCK IT! SHRED IT!**

13. The General Data Protection Regulation

We acknowledge that the law is changing on the rights of data subjects and that the General Data Protection Regulation came into force in May 2018. We have reviewed working practices for this new legislation. Training will be provided to members of staff and governors where appropriate.

14. Monitoring arrangements

The Headteacher/Data Manager are responsible for monitoring and reviewing this policy.

At every review, the policy will be shared with the governing body.
