

Dear Parent

PARENT TEXTING

Please note that we use Teachers2Parents which is a texting facility to enable us to keep parents informed of things happening at the school. This means that we shall not have to rely on pupils handing notes to their parents quite as much.

We shall be able to text parents, for example:

- if the school has to close for any reason,
- if after school clubs have to be cancelled,
- event reminders,
- any other reason that we need to keep parents up to date.

There will be one form only for each family. Each family can nominate **one mobile number** which can be used for this great communication service. It is best to choose a mobile number from a member of the family that is likely to see texts during the school day.

Please note that you may withdraw your consent at any time. Please contact the office.

Please note that when you receive texts, your display will show **HalbertonPr**.

Many thanks in advance for your assistance.

Ms Nina Ashley
Business Manager
