

Summary of PE Sports Premium Funding 2017-2018

During the academic year, the government continued to provide additional funding of £150 million to improve the provision of physical education (PE) and sport in primary schools. This funding was provided jointly by the Department for Education, Health and Culture, Media and Sport and was allocated to primary school headteachers. The funding was ring-fenced and therefore can only be spent on the provision of PE and sport in schools.

Tarleton Community Primary School made the decision to buy in the services of the West Lancashire Sports' Partnership (WLSP) to develop more purposeful CPD through a coaching programme involving a coach observing practice then demonstrating and providing practical advice in a short session every three weeks, including gap tasks for the teaching and learning.

The school also wanted all the children to be physically active and have developed opportunities through embedding the Daily Mile and Wake Up and Shake Up as well as working with local partners to develop a new sport association called TASA with focuses on physical activity in Trail Blazer activities so that children are not put off by competitive sport.

Sustainability:

The school aims to make impact of funding sustainable through continued membership of WLSP. To this end, pupils will continue to access high quality PE and school sport; staff will continue to develop through CPD; AGT & SEND pupils will continue to be challenged; the provision of Sports Leaders will continue; and finally through our membership of WLSP and TASA our pupils will continue to have access to a range of competitions across a range of sports as well as activities that are non-competitive so that the children are active.
