

Volunteers needed

Title of study: **Developing an online resource and music-assisted language intervention for autism: A focus group study.**

We are carrying out a study to consult parents' ideas and views to develop an **online resource giving information and peer support** for parents of children with autism, as well as to design **music-assisted language interventions** to **elicit speech** from non-verbal or minimally verbal children with autism.

We are looking for parents who have a child diagnosed with autism and who are:

- Aged **18 or over**;
- Willing to attend a **one-off focus group** meeting at **University of Reading** (or **locally**); and
- Happy to **share ideas** to help design an online resource and language interventions for autism.

You will be remunerated for **your time and travel expenses**
