

Potions

Here are a list of additional (non-compulsory) activities that you may wish to complete with your child at home to enhance their learning about our topic 'Potions'.

* Make a list of all the solids, liquids and gases you can find at home. Are they kept safely?

* Make a sketch of any interesting bottles you have at home. Remember to add patterns, textures, shading and finer details!

* Make homemade perfume or potions using things you find in the kitchen, garden or bathroom (before you start check with an adult which substances are safe to use). Use a pestle and mortar to grind up the things you find. Add liquid and strain to get rid of the lumpy bits. What have you made?

* Calculate how many litres of water it takes to fill your bath. Which uses less water, the shower or the bath? How can you find out?

* Make ice lollies at home. Can you add a surprise ingredient that reveals itself as the ice melts?

* Visit your local library or bookshop to search for other plays and stories on the theme of potions. Write a book review and share it with others in your class
