

Warley Primary School

Sports Premium Report

Last reviewed: July 2017

Adopted: July 2017

To next be reviewed: September 2018

Warley Primary School

Primary School's Sports Funding

What is the Sports Premium?

Most schools with primary-age pupils receive the PE and sport premium in the academic year 2017 to 2018, including:

- schools maintained by the local authority
- academies and free schools
- special schools (for children with special educational needs or disabilities)
- non-maintained special schools (schools for children with special educational needs that the Secretary of State for Education has approved under section 342 of the Education Act 1996)

Funding for 2017 to 2018

As a school, we receive PE and sport premium funding based on the number of pupils in years 1 to 6.

As a schools with 17 or more eligible pupils, we receive £16,000 and an additional payment of £10 per pupil.

For the academic year 2017/2018 we will receive: £12,740

How we are spending the Sports Funding and who benefits?

The Governors agree that the money must be used so that:

- all children benefit regardless of sporting ability,
- staff have access to working alongside specialists and have opportunities for training to bring about sustainable improvement to the quality of PE at our school,
- there are a greater variety of extracurricular opportunities for PE and high-quality school sport, including increased activity at lunch and break times,
- all children are given more regular opportunities to compete in tournaments and competitions at local, county and national levels,

- the school can make improvements now that will benefit pupils joining the school in future years,
- the school can support and involve the least active children by running or extending school sports clubs including during break and lunch times and after-school.

The following table shows how we spent the sports funding during the financial year 2016/2017:

Warley Primary School received £8825 for 2016/2017 Academic Year
<p>Planned Use 1</p> <p>£4930 towards the cost of employing a qualified sports coach to teach high quality PE skills sessions outside of PE curriculum time (approx. 5 hours per week) to all pupils and to support the development of PE teaching throughout the school through team teaching with all staff. The Sports Coach will take the lead in organising and managing the school's participation in all sporting events and maximise potential for competitive participation for all children. During the 5 hours additional teaching time, the coach will prepare children for all external competitions to ensure that children are fully prepared and to allow a greater range of children to attend such events.</p>
<p>Impact</p> <p>Our specialist sports coach has continued to provide high quality teaching both independently and alongside class teachers. In two focussed observations of his teaching, the lessons were judged to be good. A range of school sports have been taught to all pupils across the year.</p> <p>Pupil perception surveys show that a large majority of children enjoy PE lessons that are provided at school with 100% of children saying that they always or mostly enjoyed PE lessons. In a self-analysis of progress, 79% of children felt that they had made good progress in PE across the year.</p> <p>Tracking of attainment in PE shows that the following number of children were assessed as performing in-line with age- expectations for their year group:</p>
<p>Rec - 93.5%</p> <p>Yr1 - 82.85%</p> <p>Yr2 - 83.9%</p>

Yr3 - 92.6%

Yr4 - 90.6%

Yr5 - 90.6%

Yr 6 - 90.6%

The school average of children achieving in-line with age related expectations was 89.2%.

Over the course of the year, children took part in the following external sporting events: football league, cross country, football tournaments, athletics tournaments, rounders tournaments, District Sports, a dance competition and a trim trail trial. For the first time ever, a team from the school took part in a local swimming gala, competing against 7 local primaries. All pupils in Year 3 and Year 6 took part in athletics competitions locally. 101 KS2 children took part in these competitions and events across the school which is an increase from 87 children in the previous academic year. This represents 84% of KS2 pupils taking part in at least one external competition.

In the District Sports the school moved into the 'middle schools' league last year from 'small schools' and performed well, winning a number of relay team races and individual track events. More importantly, all children who attended the above sporting events reported high levels of enjoyment and feelings of self-worth.

Planned Use 2

£3495 towards securing a safe and secure green playing space for PE lessons, school sports activities, matches and tournaments and general activity. The school's sporting space is currently limited and restricts the sports and competitions that pupils can take part in. The school has the opportunity to invite a range of external coaches in throughout the year, but lack of usable playing space restricts this. Competitive sports activities at lunchtime which will be run by Year 6 Sports leaders require a greater playing space than the school can currently offer.

Impact

The funding identified above was used to employ specialists such as surveyors and arboriculturalists to undertake necessary works in order to apply for planning permission and landlord's consent. This has now been

granted and works will commence in Sept 2017 to install a new fence around the perimeter of the school's playing fields. The impact of this will be:

All children will have access to a large expanse of green playing space for PE lesson time and playtimes.

Additional clubs will be able to commence due to the increased play space at the school.

Children will be able to play safely and use more of the land.

Additional sporting events and competitions will be facilitated at the school due to the safe playing space.

Planned Use 3

£500 towards the cost of providing a high quality swimming provision for pupils in year 2-5 who have already met the 25m curriculum requirement. These children will begin to train towards a club standard.

Impact

12 children who had already exceeded the National Curriculum requirements for swimming received teaching towards a club standard. These children are able to competently swim 400m at speed and in a range of strokes. The children received lessons on life-saving and water safety and achieved badges in this area. The children received teaching on specific swimming skills such as tumble-turns, dive starts and relay swimming. Many of these children attended a local swimming gala, competing against 7 other local schools and achieved well.

The following table shows how we are spending the sports funding during 2017/2018:

Warley Primary School will receive £12,740 for Academic Year 2017/2018.

Planned Use 1

Yoga Teaching for all Pupils: £1140

6 x 1 day sessions across the school year. All classes to have 6 40 minute sessions. Lesson to focus on improving strength, flexibility and mental well-being. Class teachers to take part in all sessions with pupils to allow them to learn skills that can be incorporated into classroom teaching and PE lessons.

Planned Use 2

Lunchtime and Afterschool Provision for the least active pupils: £2000

Employ dedicated sports coach to provide fun and engaging PE sessions during play and lunch times and afterschool, aimed at the least active and less engaged children. The sessions will improve engagement, fitness, motivation, teamwork and enjoyment and will be aimed at engaging pupils who are not able to attend extra-curricular activities due to financial or motivational constraints.

Planned Use 3

Athletics Coaching: £1200

Through self-evaluation by the PE Leader and SLT, we have identified that teaching of athletics at a level well beyond the requirements of the National Curriculum is required if the school is to compete at a local and county level. Specialist sports coaches will be employed to provide expert coaching in specific areas such as long jump and high jump to pupils in KS2. They will help to identify initial talent and will also provide opportunities for all.

Planned Use 4

Improved playground layout and equipment: £6195

A new multi-sport area of the playground will be installed to improve resources available in PE lessons and more importantly to give far greater opportunity for PE and active play during break and lunch times. Structured PE games and lessons will be facilitated at lunchtime by an adult as well as trained Play leaders. School staff will have greater opportunity to run afterschool activities in the newly divided area. New playground and PE equipment will also be purchased to give children a greater range of resources to make use of at lunchtime therefore bringing about active play.

Planned Use 5

Funding for Subject Leader delivery role: £1225

1. The Year 5 full-time class teacher is the PE subject leader. In order for pupils to attend the greatest range of sporting events possible accompanied by the PE lead, it is necessary to arrange high-quality in-class cover in the form of cover teachers so that the high-quality education of the base class is maintained.
2. In order to develop the school's provision to provide high-quality inter-house competitions aimed at participation for all, the PE lead requires administration and delivery time. This will allow all pupils to participate competitively in at least one sporting competition per term.

Planned Use 6

Purchase of specialist equipment/clothing to allow all pupils to complete safely and with a sense of pride: £500

The school will purchase necessary team and individual clothing and equipment to allow pupils to participate in a wider range of local and county competitions.

Planned Use 7

Sports Taster Days: £480

In order to develop the children's curiosity and interest in a range of sports that go beyond the National Curriculum, we will aim to provide them with taster experiences across a range of sports such as Golf, Aerobic exercise and Fencing. This may lead to them developing an interest in this sport and acquiring it as a hobby bringing about a lifelong commitment to activity and fitness.
