

Sports Premium Budget Allocation 2018-2019

Sport, games and PE are beneficial to children's physical wellbeing, and also their emotional well-being too. Being involved in sport, playing and learning new skills and games, builds children's confidence, and develops their fitness and skills levels. Sport also teaches us;

- How to be part of a team
- How to encourage team mates
- Determination and dedication
- Application of skill
- Tactical awareness
- The enjoyment of winning and how to cope if you don't!

These are behaviours and attributes, that at Nelmes, we endeavour to promote throughout the whole curriculum.

At Nelmes children participate in indoor and outdoor physical activities on a weekly basis. Our physical education programme, which fully meets the National Curriculum requirements, includes the following activities and sports;

- Early sports skills e.g. bat and ball, running and moving in and out of spaces
- Gymnastics – floor and equipment work
- Hockey
- Tennis
- Basketball

Years 3-5 swim every half term at Champion Swimming pool. It is one of our aims that every child who leaves our school is competent and confident swimmer.

We have received £16,809 of additional funding to develop PE, children's fitness and opportunities to take part in competitive sporting activities.

This money has and will be used to;

- Recruit a fully qualified sport coach who assists in PE lessons to ensure full participation and to support the children's skills development
- Continue to increase the number of sporting clubs available to children [before/after school and during lunchtimes], led by the sport coach
- Participate in the Havering Sports Collective - which enables to the school to take part in a wide range of competitive events, including; Athletics, tag rugby, swimming gala, netball competitions and the football league
- Ensure all sporting resources and equipment are up-to-date and allow teachers to plan for and teach a wide range of sporting activities

It is the role of the senior leadership team and Governing body to ensure the money allocated is providing value for money.

Impact

The sports premium has improved the number of free clubs we have been able to offer. The participation in sport has increased. The children and parents tell us how much they enjoy the clubs and taking part in the inter-school competitions. This year over 200 children took part in a sports' club with many being oversubscribed. In Year 6 55/60 children took part in a sporting club and some of intra/inter school competition.

During the last academic year the school was entered in to a number of competitions including; Quad Kids, X country, Netball league, football league, cricket, indoor athletics, hockey, rugby, swimming gala.

Our children achieve well in these competitions e.g. 4 of our children were in the top for all round individual achievements at the Quad Kids competition in the Summer term.
