

Week 2

Friday 14th September 2018

This Week

'London's on Fire' started with a bang this week when Jack and Jo the Jigsaw pieces went missing and KS1 had to find them. After following a trail of clues the children found them shivering behind the garage! They quickly suggested we make a fire to warm them up which was unsuccessful until we went to the fire pit!

There, Mrs Gorton successfully built a fire that warmed us all up! We sang London's Burning together in a round and toasted marshmallows on sticks.

On our return to the classroom Year 1 made lists about what they saw, heard and felt at the fire.

FYI

- Library is a Thursday morning
- Please remember to read 4 times a week with your child!
- We have a new TA coming in to class on Monday, Tuesday and Friday mornings her name is Mrs Kinnersley and we look forward to welcoming her on Tuesday :)
- Mrs Matthews will occasionally take Year 1 on a Tuesday PM during my phase release time

Describing and Sorting

Year 1 got a little confused this week when they were presented with 6 conkers, 6 shells, 6 blocks 6 polydron, 6 knex pieces and 6 pens and pencils. They were asked to sort them in different ways. The only way they could sort them was by object. We discussed looking closely and describing colour, shape and where they came from which then began to give them more ideas.

This is something you can practice at home using questions such as how would you sort them? What do some things have that is the same?

Misconception-Grouping is just choosing 1 of each conker, shell etc and putting them together. The objects put together should have something in common-colour, size etc.

Mrs Dunk's message

It was lovely to see so many of you at Meet the Teacher on Monday-thank you for coming.

The presentation is up on the Year 1 class page so do please have a look if you weren't able to make it and come and see me with any questions you may have.
