<ul style="list-style-type: none"> • Increased achievement and attainment in curricular P.E and extracurricular activities against the expected outcomes • Higher participation in sporting activities • Established successful school teams • Enhanced reputation in MK with regards to sporting events • Children demonstrate the key characteristics of sportsmanship in different contexts • Enhanced well-being strategies through yoga and relax kids • Increased movement in P.E • Gross motor skills work leading to enhanced sporting skills and movement 			
Anticipated spend of PSG spending by item/ project 2017-18			
Item/project	Cost	Objectives	Outcomes
Milton Keynes Schools Sports Partnership	£1,700	<p>To support all staff involved in leading PE lessons allowing access to PE, sport and physical activity CPD – 20 course programme</p> <p>To provide pupils with regular opportunities to participate in competitive activities</p> <p>To provide support for PE coordinators to develop PE planning and assessments.</p>	<p>There is a programme of events set out for children to compete both competitively and through skill based activities. More children are involved in competition out of school. Areas identified through Sports coaches' self-evaluation are accessed, which has led to greater competence in teaching a range of curriculum subjects. Support for subject leader to raise standards of teaching and therefore attainment in PE. Networking and access to planning and assessment tools, to develop assessment within school to track pupil attainment.</p>
Level 5 Certificate in Primary P.E	£2,750	<p>To provide professional development for our sports coaches to take on Leadership roles within the sports team. To allow them to develop their confidence and competencies to develop their role within school. To allow them to teach more effectively and achieve high standards of attainment within the P.E curriculum.</p>	<p>Children will have higher attainment due to more robust planning, assessment and evaluation being in place. Coaches will be qualified to lead development in all areas of curriculum delivery and be able to take on more of a leadership role to achieve higher standards.</p>
Competition Entry	£135	<p>To provide children with the opportunity to compete at a high level.</p>	<p>Children will gain experience of competing at a high level and develop skills to compete alongside</p>

			their peers in a variety of sports.
Girl only clubs	£451	To ensure that there are clubs available to encourage girls within school to be more physically active.	More girls will be attending after school clubs and are accessing exercise on a more regular basis.
Equipment/resources	£905	To ensure that the children have the correct equipment for a range of sporting and P.E opportunities.	Children will be more competent in the fundamental movement skills. Equipment will enable children to be taught to a high standard with high quality equipment.
PE/ Sports coaches	£11,139	To allow different children to take on a challenge and participate in sports academies to progress their skills further if they have an interest or a strength in that sport. To provide high quality sports academies and a range of after school clubs to give children wider opportunities to participate in sports. To allow children who attend the after school provision to have access to a range of quality sporting experiences.	A variety of children, from all different year groups, have been getting involved with different sports academies and this has reflected on their enthusiasm to sport. A huge number of our children are attending these academies leading to raised fitness and skill. We are through to county level in 3 different sports this year and there is increased participation from children. There has been an increase in the numbers of our after school sports clubs and children are enjoying being active.
Children's Sports Kits	£425	To develop the sporting identity of Oxley Park. To develop the team ethos so that they feel part of a team.	Increased team, spirit and motivation to do well, when competing against their peers. They look smart and feel proud of their kit and their school.
Playground Equipment	£1,000	To encourage children to be active at lunch times and playtimes by providing a range of stimulating resources.	Children are increasingly active, which in turn leads to increased health and mental alertness. Therefore, leading to higher attainment in their learning.
Trim Trail	£15,000	To provide the opportunity for children to be active and take risks during playtimes and also during P.E sessions, through using challenging equipment in the outdoors.	Children use the equipment to build up strength, stamina and also develop their skills of risk taking and problem solving. Therefore, leading to improved attainment across a wide range of curriculum areas.

Percentage of Year 6 who can swim	89%
Summary	
Total PSG received	£20,790
