

<p><u>Maths</u> Population means the number of people living in a country. Choose 5 different countries from in the Southern Hemisphere (eg: Brazil, Chile, South Africa, Madagascar and Australia) and find out their population (eg: 5 million people). Present this using an eye catching table, graph or chart.</p>	<p><u>English</u> Choose a country from the southern hemisphere and make an exciting poster to persuade people to visit that country on holiday. Make sure you include</p> <ul style="list-style-type: none"> • at least 6 facts about the country (eg: name of the capital, what the climate is like, famous landmarks) • persuasive language • eye catching pictures/titles 	<p><u>Science</u> Choose a habitat that is in the Southern Hemisphere. This could be the Amazon rainforest, Australian grassland or a swamp in Madagascar. Make a diagram of one food chain for some of the living things in this habitats, starting with producers (plants) up to the top predator. Your food chain should contain at least 4 living things. Label whether animal is a herbivore, omnivore or carnivore.</p>	<p><u>Art</u> The Amazon rainforest is full of beautiful plants and animals. Create a piece of art which shows the beauty of the rainforest. This could be a sketch copied from a photo, a painting or a collage of different images combined together.</p>
<p><u>ICT</u> Aboriginal Australians use a set of stories called 'Dreamtime' stories to explain the origin of life and the world. Make a power point presentation to retell one of these stories. Make sure you include exciting features such as transitions, animations and sound effects or hyperlinks to keep the audience interested.</p>	<p><u>D + T</u> To start our theme, we are planning a voyage across the Southern Hemisphere. What transport would you use if you did this? This could be a boat, aeroplane, hovercraft or anything else that would transport you between continents! You can create a labelled diagram of your vehicle or alternatively make a model of this vehicle using junk modelling. Include a short explanation of how your vehicle works.</p>	<p><u>Music</u> There are hundreds of different musical styles and instruments across the southern hemisphere. Choose two of the cajon, the djembe or the digeridoo to draw a detailed picture of and record some facts about.</p>	<p><u>Geography</u> The three most populated continents located South of the Equator are South America, Africa and Australia. Choose one of these to draw a map of. Label all of the countries on the continent, capital cities and oceans (eg: pacific/Atlantic) next to them.</p>
<p><u>RE</u> Christ the Redeemer is one of only two of the new 7 wonders of the world that lies south of the Equator. Sketch/recreate an image of this religious monument. Also find out which country and city it is in.</p>	<p><u>PE</u> The Maori people in New Zealand use the Haka dance. Watch here: https://www.youtube.com/watch?v=huEWaGYaJn4 Come up with your own Haka Dance Routine in this style with at least 8 parts, writing down steps and instructions for it then if possible record either a video or take photos of you performing it.</p>	<p><u>History</u> Who was the famous British explorer who first travelled to Australia and New Zealand? Research and create a fact file about them. This must include their name, when they lived, how many times they travelled to Australia and more facts of your own!</p>	<p><u>MFL</u> Different languages, such as English, French and Portuguese are used in countries all over the world. Choose 10 countries in the Southern Hemisphere and find out what language they use.</p>

The tasks can be completed in any order but must all be done by the end of this term. Hand in 1 piece of work every week on a Tuesday.

Colour in the task when it is completed.

Homework also includes times tables practise, reading 3 times a week and weekly spellings (given out on a Thursday to be tested on Monday).

If your homework is not contained in your homework book, hand the book in with a short explanation of what you have done in it.
