

## Personal Social and Emotional Development

During the first few weeks we will learn all about our new nursery. We will get to know our new friends, become more confident and talk about our likes and dislikes. We will be thinking about the needs of others and learning to share and take turns. We will also be learning the nursery rules which help to keep us safe.

## Communication and Language

### Literacy

Singing rhymes and songs together will help your child develop language and listening skills which are essential for all areas of learning.

We will be learning lots of nursery rhymes and will be telling the story of the characters in each rhyme.

## Mathematics

Within the nursery environment we will be exploring a wide variety of mathematical resources including numerals, counting activities, shapes and patterns. We will be learning to sing number rhymes and songs and use our fingers to represent numbers.

Each week we will be making play dough and cooking and will be measuring out the ingredients we need.

## Physical

Outdoors we will be learning to use the wheeled toys and the outdoor play equipment.

We will be using a range of materials to develop our fine motor skills and hand/eye co-ordination.

## Expressive Arts and Design

We will be singing nursery rhymes and using the instruments in nursery to accompany our songs.

Each week we will make props, puppets and paintings to help us to retell the stories within the nursery rhymes.

## Understanding the World

We will be thinking about Autumn and talking about the changes in the seasons.

We will be cooking a variety of savoury and sweet recipes.
