

Welcome Back Year 5 Bats!

I hope that you've all had a fantastic summer and are now ready for a super start to the year! I am very much looking forward to working with your children and making learning as fun as possible.

The class weekly timetable, and any other events, will be posted on our page on the school website, please feel free to check there for any extra information.

Supporting our learning in the classroom this year is Mrs Keighley, who is a new member to our team and we are very much looking forward to working with her.

We will be starting the new half term by reading *Charlotte's Web* and basing our English learning around this topic. A brief overview of the learning includes; diary writing and writing our own story. In numeracy, we are looking at place value to begin with. Lastly, science will include: life-cycles, what makes us 'us' and plant dissection.

Every Monday morning the children in Year 5 will go swimming, so please ensure that the children have their swimming costume with them, which must be a full suit and not a bikini, along with a towel in a named bag.

It is expected that the children will bring their reading books into school every day and read as much as possible with an adult at home, this will greatly help the children with their confidence in reading.

School will provide a pencil case and all the equipment that is needed for every day learning, so please don't go to any expense.

Homework will be set every week, with the expectation that this homework will then be handed in 6 days later. If you or your child need any help with any of the work, or just in general, then please feel free to come and have a quick chat after school or book an appointment if you require.

Here's to a fabulous year!

Miss Carroll - Class Teacher
Mrs Keighley - Class Support
