

Lees Primary School

Accessibility Plan Policy

Purpose of the Plan

The purpose of this plan is to show how Lees Primary School intends, over time, to increase the accessibility of our school for disabled pupils.

At Lees Primary School we are committed to ensuring *equality* of education and opportunity for all pupils, staff and carers irrespective of race, gender, disability, faith, religion, socio-economic background, sexual orientation, age or culture.

Definition of Disability

A person has a disability if he or she has a physical or mental impairment that has a substantial and long-term adverse effect on his or her ability to carry out normal day to day activities.

Legal Background

From September 2002, the Disability Discrimination Act 1995 outlawed discrimination by schools and LA's against either current or prospective disabled pupils in their access to education. It is a requirement that the school's accessibility plan is resourced, implemented and reviewed and revised as necessary.

This plan sets out the proposals of the Governing Body of the school to increase access to education for disabled pupils in the three areas required by the planning duties in the DDA:

- Increasing the extent to which disabled pupils can participate in the school curriculum, which included teaching and learning and the wider curriculum of the school, such as participation in after school clubs, leisure and cultural activities or school visits;
- Improving the environment of the school to increase the extent to which disabled pupils can take advantage of education and associated services, which includes improvements to the physical environment of the school and physical aids to access education.
- Improving the delivery to disabled pupils of information, which is provided in writing for pupils who are not disabled, e.g. handouts, timetables, textbooks and information about school events. The information should take account of the pupils' disabilities and the preferred format of pupils and parents and be made available within a reasonable timeframe.

Contextual Information

The whole of Lees school grounds are accessible for anybody in a wheelchair. We have wheelchair access into the building via the main entrance and 3/4 entrance.

The Current Range of Disabilities within Lees Primary School

Currently the school has a number of children with ASD diagnoses of and or hearing impairment. When children enter school with specific disabilities, the school contacts the LA professionals for assessments, support and guidance for the school and parents for example; EHC Plans, Care Plans, IEPs.

We have a number of children who have asthma and all staff are aware of these children. Inhalers are kept in the classrooms and a record of use is noted. Spare inhalers are kept in the main office.

Some children have allergies which require them to access an epipen, these are kept in the child's classroom. All staff have annual epipen training. Lists of all children's allergies and dietary requirements, which include the children's photograph are in each classroom, main office, kitchen and the staffroom. This is updated every September.

Lees Primary School Accessibility Plan 2018 – 2020

Targets	Strategies	Outcome	Timeframe	Achieved
EQUALITY AND INCLUSION
