

KS2 Cross Country

24/09/18

A huge event took place at Newsome High School. A School Games Cross country was held there, with over 200 children taking part. The race was split into year groups, with boys and girls competing separately. The course was explained to the children, and with Newsome young leaders helping the contestants, the children began. All of the children from Hillside ran really well, showing great resilience in completing the course. I'm sure they all slept well.
