Dear Parents/Carers,

Re: Chicken pox

The school has been informed that two children in class 1AA have been off with chicken pox.

If your child shows any of the symptoms listed below, please see your G.P. following the guidelines. Your G.P. will advise you how long your child will have to remain off school.

Speak to your GP if:

- You are not sure it is chicken pox.
- The skin around the blisters is red, hot or painful (signs of infection).
- Your child is dehydrated.
- You are concerned about your child.

Please contact your GP urgently if:

- You are an adult and have chicken pox.
- You are pregnant and have not had chicken pox.

For further information, please refer to NHS guidelines: https://www.nhs.uk/conditions/chickenpox/

Yours sincerely,

Miss K. Allen
