

<p><u>Maths</u></p> <p>Population means the number of people living in a country. Choose 8 different countries from in the Southern Hemisphere (eg: Brazil, Chile, South Africa, Madagascar and Australia) and find out their population (eg: 5 million people). Present this using a pie chart.</p>	<p><u>English</u></p> <p>Choose a country from the southern hemisphere and make an exciting booklet/brochure to persuade people to visit that country on holiday. Make sure you include key sections such as how to get there, a simple map, place to visit, the type of food as well as a contents and glossary section.</p>	<p><u>Science</u></p> <p>Choose a habitat that is in the Southern Hemisphere. This could be the Amazon rainforest, Australian grassland or the Antarctic. Choose 2 animals and describe how they have evolved and adapted in more than one way to survive in this environment (eg: Polar bears have a layer of blubber to help them keep warm). Include a labelled diagram.</p>	<p><u>Art</u></p> <p>Jungles and rainforest are full of beautiful plants and animals. One artist who was inspired by the jungle was Henri Rousseau. Choose a piece of artwork of his to recreate yourself. This could be via sketching, painting or collage – be creative! Then write a short biography about Rousseau.</p>
<p><u>ICT</u></p> <p>Aboriginal Australians use a set of stories called 'Dreamtime' stories to explain the origin of life and the world. Use your choice of ICT software to recreate a version/retelling of one of these stories. This could be a piece of digital art, a power point presentation, a vlog retelling by yourself or a video with music created by yourself. Make this as memorable as possible!</p>	<p><u>D + T</u></p> <p>To start our theme, we are planning a voyage across the Southern Hemisphere. What transport would you use if you did this? This could be a boat, aeroplane, hovercraft or anything else that would transport you between continents! First plan out what your vehicle will look like with a labelled diagram of your vehicle or then make a model of this vehicle using junk modelling. Include a short explanation of how your vehicle works. When it is complete, evaluate your creation. What worked well? What would you improve?</p>	<p><u>Music</u></p> <p>There are hundreds of different musical styles and instruments across the southern hemisphere. Choose two of the cajon, the djembe or the digeridoo to compare to each other, including drawings or photos and information such as which country they originate from. Also find a piece of music which uses one of these instruments and write a short review of it.</p>	<p><u>Geography</u></p> <p>The three most populated continents located South of the Equator are South America, Africa and Australia. Choose one of these to draw a map of. Label all of the countries on the continent, capital cities and oceans (eg: pacific/Atlantic) next to them. Then choose three major landmarks (eg: rivers, mountains, rainforests and also mark these on to your map.</p>
<p><u>RE</u></p> <p>Christ the Redeemer is one of only two of the new 7 wonders of the world that lies south of the Equator. Sketch/recreate an image of this religious monument and then research its geography and history. Which country and city is it in? Who made it, when and why?</p>	<p><u>PE</u></p> <p>The Maori people in New Zealand use the Haka dance. Watch here: https://www.youtube.com/watch?v=huEWA_GYaJn4 Come up with your own Haka Dance Routine in this style with at least 8 parts, writing down steps and instructions for it then if possible record either a video or take photos of you performing it. Also research the history of the Haka: why do they do it? How old is the dance?</p>	<p><u>History</u></p> <p>Who was the famous British explorer who first travelled to Australia and New Zealand? Research and create a fact file about them. This must include their name, when they lived, how many times they travelled to Australia and more facts of your own!</p> <p>Who are the aboriginal people of Australia? Research 5 facts about these people. Think about how they may have felt when western settlers came to colonise Australia – would they have been happy about this?</p>	<p><u>MFL</u></p> <p>Different languages, such as English, French and Portuguese are used in countries all over the world. Choose 8 countries in the Southern Hemisphere and find out what language they use. Then choose 3 words related to our theme (eg: animal names etc) and find the translation for them in each of the languages you have listed.</p>

The tasks can be completed in any order but must all be done by the end of this term. Hand in 1 piece of work every week on a Tuesday.

Colour in the task when it is completed.

Homework also includes times tables, reading 3 times a week and weekly spellings. If your homework is not contained in your homework book, hand the book in with a quick explanation of what you have done.

<p>Population means the number of people living in a country. Choose 5 different countries from in the Southern Hemisphere (eg: Brazil, Chile, South Africa, Madagascar and Australia) and find out their population (eg: 5 million people). Present this using an eye catching table, graph or chart.</p>	<p>Choose a country from the southern hemisphere and make an exciting poster to persuade people to visit that country on holiday. Make sure you include at least 6 facts about the country (eg: name of the capital, what the weather is like, famous landmarks) as well as eye catching pictures/titles!</p>	<p>Choose a habitat that is in the Southern Hemisphere. This could be the Amazon rainforest, Australian grassland or a swamp in Madagascar. Make a diagram of one food chain for some of the living things in this habitats, starting with producers (plants) up to the top predator. Your food chain should contain at least 4 living things. Label whether animal is a herbivore, omnivore or carnivore.</p>	<p>The Amazon rainforest is full of beautiful plants and animals. Create a piece of art which shows the beauty of the rainforest. This could be a sketch copied from a photo, a painting or a collage of different images combined together.</p>
<p><u>ICT</u></p> <p>Aboriginal Australians use a set of stories called 'Dreamtime' stories to explain the origin of life and the world. Make a power point presentation to retell one of these stories. Make sure you include exciting features such as transitions, animations and sound effects or hyperlinks to keep the audience interested.</p>	<p><u>D + T</u></p> <p>To start our theme, we are planning a voyage across the Southern Hemisphere. What transport would you use if you did this? This could be a boat, aeroplane, hovercraft or anything else that would transport you between continents! You can create a labelled diagram of your vehicle or alternatively make a model of this vehicle using junk modelling. Include a short explanation of how your vehicle works.</p>	<p><u>Music</u></p> <p>There are hundreds of different musical styles and instruments across the southern hemisphere. Choose two of the cajon, the djembe or the digeridoo to draw a detailed picture of and record some facts about.</p>	<p><u>Geography</u></p> <p>The three most populated continents located South of the Equator are South America, Africa and Australia. Choose one of these to draw a map of. Label all of the countries on the continent, capital cities and oceans (eg: pacific/Atlantic) next to them.</p>
