

Challenge 4 Change

On Tuesday 18th June, Year 4 will be visiting 'Challenge 4 Change' in Trafford, Manchester.

Challenge 4 Change is an indoor activity centre which offers an exciting range of challenging activities. The children will take part in a variety of team building activities and which will support objectives from our PHSE and PE curriculum.

Through the activities, children will develop key and thinking skills and will be encouraged to reflect on what, and how, they learn. They will learn in a fun and practical way and will reflect on how these skills can be applied to different subjects, problems and real-life situations.

The activities also support the current curriculum focus on personal learning and thinking skills: independent enquirers, creative thinkers, team workers, self-managers, effective participators and reflective learners.

A voluntary contribution of £20.00 per child is required for this visit to cover the cost of the coach and the admission charges. Payments and consent can now be completed on School Money. The children will require a packed lunch (no glass please) and they will need to wear a games kit not school uniform.

More information can be found on the website which also has a virtual tour of the centre.
