

Rushall Primary School Curriculum Overview for Mathematics

We follow the National Curriculum for Mathematics in key stage one and two (years 1-6). We teach the curriculum through a mastery approach, using concrete, pictorial and abstract representations. For information about Early Years (Nursery and Reception) please see the Early Years long term plan.

This overview is a guide, some concepts may need more time and others less, dependent upon the needs of our children. Some areas may be linked to and covered through our creative curriculum topics.
