Represent and use number bonds and related subtraction facts within 20.</p> <p>b. Read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals (=) signs.</p> <p>c. Add and subtract one-digit and two digit numbers to 20, including zero.</p> <p>d. Solve one step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as $7 = \square - 9$.</p> <p>2. Number: Place Value (within 50) (Multiples of 2, 5 and 10 to be included)</p> <p>a. Count to 50 forwards and backwards, beginning with 0 or 1, or from any number.</p> <p>b. Count, read and write numbers to 50 in numerals.</p> <p>c. Given a number, identify one more or one less.</p> <p>d. Identify and represent numbers using</p>	<p>1. Number: Multiplication and Division (Multiples of 2, 5 and 10 included).</p> <p>a. Count in multiples of twos, fives and tens.</p> <p>b. Solve one step problems involving multiplication and division, by calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher.</p> <p>2. Number: Fractions, Halves and quarters</p> <p>a. Recognise, find and name a half as one of two equal parts of an object, shape or quantity.</p> <p>b. Recognise, find and name a quarter as one of four equal parts of an object, shape or quantity.</p> <p>c. Compare, describe and solve practical problems for: lengths and heights (for example, long/short, longer/shorter, tall/short, double/half).</p> <p>d. Compare, describe and solve practical problems for: mass/weight [for example, heavy/light, heavier than, lighter than]; capacity and volume [for example, full/empty, more than, less than, half, half full, quarter].</p> <p>3. Geometry: Position and Direction</p> <p>a. Describe position, direction and movement, including whole, half, quarter and three quarter turns.</p> <p>4. Number: Place Value (within 100)</p>

	<p>pictorial representations and missing number problems.</p> <p>3. Geometry: Shape, Recognising 2D and 3D shapes</p> <p>a. Recognise and name common 2-D shapes, including: (for example, rectangles (including squares), circles and triangles).</p> <p>b. Recognise and name common 3-D shapes, including: (for example, cuboids (including cubes), pyramids and spheres).</p> <p>4. Number: Place Value (within 20)</p> <p>a. Count to twenty, forwards and backwards, beginning with 0 or 1, from any given number.</p> <p>b. Count, read and write numbers to 20 in numerals and words.</p> <p>c. Given a number, identify one more or one less.</p> <p>d. Identify and represent numbers using objects and pictorial representations including the number line, and use the language of: equal to, more than, less than (fewer), most, least.</p> <p>5. Measurement: Time</p> <p>a. Sequence events in chronological order using language [for example, before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening.</p>	<p>objects and pictorial representations including the number line, and use the language of: equal to, more than, less than (fewer), most, least.</p> <p>e. Count in multiples of twos, fives and tens.</p> <p>3. Measurement: Length and Height</p> <p>a. Measure and begin to record lengths and heights.</p> <p>b. Compare, describe and solve practical problems for: lengths and heights (for example, long/short, longer/shorter, tall/short, double/half).</p> <p>4. Measurement: Weight and Volume</p> <p>a. Measure and begin to record mass/weight, capacity and volume.</p> <p>b. Compare, describe and solve practical problems for mass/weight: [for example, heavy/light, heavier than, lighter than]; capacity and volume [for example, full/empty, more than, less than, half, half full, quarter].</p> <p>5. Plan, Review and Assess</p>	<p>a. Count to and across 100, forwards and backwards, beginning with 0 or 1, or from any given number.</p> <p>b. Count, read and write numbers to 100 in numerals.</p> <p>c. Given a number, identify one more and one less.</p> <p>d. Identify and represent numbers using objects and pictorial representations including the number line, and use the language of: equal to, more than, less than, most, least.</p> <p>5. Measurement: Money, Length and Time</p> <p>a. Sequence events in chronological order using language [for example, before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening.</p> <p>b. Recognise and use language relating to dates, including days of the week, weeks, months and years.</p> <p>c. Tell the time to the hour and half past the hour and draw the hands on a clock face to show these times.</p> <p>d. Compare, describe and solve practical problems for time [for example, quicker, slower, earlier and later].</p> <p>e. Measure and begin to record time (hours, minutes and seconds).</p> <p>f. Measure and begin to record mass/weight, capacity and volume.</p> <p>g. Compare, describe and solve practical problems for mass/weight: [for example, heavy/light,</p>

	Autumn Term	Spring Term	Summer Term
Year 2	<p>1. Number: Place Value</p> <ul style="list-style-type: none"> a. Read and write numbers to at least 100 in numerals and in words. b. Recognise the place value of each digit in a two digit number (tens, ones) c. Identify, represent and estimate numbers using different representations including the number line. d. Compare and order numbers from 0 up to 100; use $<$, $>$ and $=$ signs. e. Use place value and number facts to solve problems. f. Count in steps of 2, 3 and 5 from 0, and in tens from any number, forward and backward. <p>2. Number: Addition and Subtraction</p> <ul style="list-style-type: none"> a. Recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100. b. Add and subtract numbers using concrete objects, pictorial representations, and mentally, including: a two-digit number and ones; a two-digit number and tens; two two-digit numbers; adding three one-digit numbers. c. Show that the addition of two numbers can be 	<p>1. Number: Multiplication and Division</p> <ul style="list-style-type: none"> a. Recall and use multiplication and division facts for the 2, 5 and 10 times tables, including recognising odd and even numbers. b. Calculate mathematical statements for multiplication and division within the multiplication tables and write them using the multiplication (\times), division (\div) and equals ($=$) signs. c. Solve problems involving multiplication and division, using materials, arrays, repeated addition, mental methods and multiplication and division facts, including problems in contexts. d. Show that the multiplication of two numbers can be done in any order (commutative) and division of one number by another cannot. <p>2. Statistics</p> <ul style="list-style-type: none"> a. Interpret and construct simple pictograms, tally charts, block diagrams and simple tables. b. Ask and answer simple questions by counting the number of objects in each category and sorting the categories by 	<p>1. Position and directions</p> <ul style="list-style-type: none"> a. Use mathematical vocabulary to describe position, direction and movement including movement in a straight line and distinguishing between rotation as a turn and in terms of right angles for quarter, half and three-quarter turns (clockwise and anti-clockwise). b. Order and arrange combinations of mathematical objects in patterns and sequences. <p>2. Plan, Review and Assess</p> <ul style="list-style-type: none"> a. Number: Addition, Subtraction, Multiplication and Division <p>3. Measurement: Mass, capacity and temperature</p> <ul style="list-style-type: none"> a. Choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature ($^{\circ}\text{C}$); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels b. Compare and order lengths, mass, volume/capacity and record the results using $>$, $<$ and $=$ <p>4. Time and Problem solving efficient methods</p>

	<p>done in any order (commutative) and subtraction of one number from another cannot.</p> <p>d. Solve problems with addition and subtraction: using concrete objects and pictorial representations, including those involving numbers, quantities and measures; applying their increasing knowledge of mental and written methods.</p> <p>e. Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and solve missing number problems.</p> <p>3. Measurement: Money</p> <p>a. Recognise and use symbols for pounds (£) and pence (p); combine amounts to make a particular value.</p> <p>b. Find different combinations of coins that equal the same amounts of money.</p> <p>c. Solve simple problems in a practical context involving addition and subtraction of money of the same unit, including giving change.</p> <p>4. Number: Multiplication and Division</p> <p>a. Recall and use multiplication and division facts for the 2, 5 and 10 times tables, including recognising odd and even numbers.</p> <p>b. Calculate mathematical statements for multiplication and division within the multiplication tables and write them using the</p>	<p>quantity.</p> <p>c. Ask and answer questions about totalling and comparing categorical data.</p> <p>3. Geometry: Properties of Shapes</p> <p>a. Identify and describe the properties of 2-D shapes, including the number of sides and line symmetry in a vertical line.</p> <p>b. Identify and describe the properties of 3-D shapes, including the number of edges, vertices and faces.</p> <p>c. Identify 2-D shapes on the surface of 3-D shapes, [for example, a circle on a cylinder and a triangle on a pyramid].</p> <p>d. Compare and sort common 2-D and 3-D shapes and everyday objects.</p> <p>4. Number: Fractions</p> <p>a. Recognise, find, name and write fractions $\frac{1}{2}$, $\frac{1}{3}$, $\frac{1}{4}$, $\frac{2}{4}$, and $\frac{3}{4}$ of a length, shape, set of objects or quantity.</p> <p>b. Write simple fractions for example, $\frac{1}{2}$ of $6 = 3$ and recognise equivalence of $\frac{2}{4}$ and $\frac{1}{2}$.</p> <p>5. Measurement: Time</p> <p>a. Tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times.</p> <p>b. Know the number of minutes in an hour and the number of hours in a day.</p>	<p>a. Tell and write the time to five minutes, including quarter past/to the hour and draw the hands on a clock face to show these times.</p> <p>b. Know the number of minutes in an hour and the number of hours in a day.</p> <p>c. Compare and sequence intervals of time.</p> <p>5. Investigations</p> <p>6. Plan, Review and Assess</p>

	Autumn Term	Spring Term	Summer Term
Year 5	<p>1. Number: Place Value</p> <ul style="list-style-type: none"> a. Read, write, order and compare numbers to at least 1,000,000 and determine the value of each digit. b. Count forwards or backwards in steps of powers of 10 for any given number up to 1,000,000. c. Interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers including through zero. d. Round any number up to 1,000,000 to the nearest 10, 100, 1,000, 10,000 and 100,000 e. Solve number problems and practical problems that involve all of the above. f. Read Roman numerals to 1000 (M) and recognise years written in Roman numerals. <p>2. Number: Addition and Subtraction</p> <ul style="list-style-type: none"> a. Add and subtract numbers mentally with increasingly large numbers. b. Add and subtract whole numbers with more than 4 digits, including using formal written methods (columnar addition and subtraction). Use rounding to check answers to calculations and determine, in the context of 	<p>1. Number: Multiplication and Division</p> <ul style="list-style-type: none"> a. Multiply and divide numbers mentally drawing upon known facts. b. Multiply numbers up to 4 digits by a one or two digit number using a formal written method, including long multiplication for 2 digit numbers. c. Divide numbers up to 4 digits by a one digit number using the formal written method of short division and interpret remainders appropriately for the context. d. Solve problems involving addition and subtraction, multiplication and division and a combination of these, including understanding the use of the equals sign. <p>2. Number: Fractions</p> <ul style="list-style-type: none"> a. Compare and order fractions whose denominators are multiples of the same number. b. Identify, name and write equivalent fractions of a given fraction, represented visually including tenths and hundredths. c. Recognise mixed numbers and improper fractions and convert from one form to 	<p>1. Number: Decimals</p> <ul style="list-style-type: none"> a. Solve problems involving number up to three decimal places. b. Multiply and divide whole numbers and those involving decimals by 10, 100 and 1000. c. Use all four operations to solve problems involving measure [for example, length, mass, volume, money] using decimal notation, including scaling. <p>2. Geometry: Properties of shapes</p> <ul style="list-style-type: none"> a. Identify 3D shapes, including cubes and other cuboids, from 2D representations. b. Use the properties of rectangles to deduce related facts and find missing lengths and angles. c. Distinguish between regular and irregular polygons based on reasoning about equal sides and angles. d. Know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles. e. Draw given angles, and measure them in degrees. f. Identify: angles at a point and one whole turn (total 360°), angles at a point on a straight line and ½ a turn (total 180°) other multiples of 90°

	<p>a problem, levels of accuracy.</p> <p>c. Solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why.</p> <p>3. Number: Multiplication and Division</p> <p>a. Multiply and divide numbers mentally drawing upon known facts.</p> <p>b. Multiply and divide whole numbers by 10, 100 and 1000.</p> <p>c. Identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers.</p> <p>d. Recognise and use square numbers and cube numbers and the notation for squared (2) and cubed (3).</p> <p>e. Solve problems involving multiplication and division including using their knowledge of factors and multiples, squares and cubes.</p> <p>f. Know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers.</p> <p>g. Establish whether a number up to 100 is prime and recall prime numbers up to 19.</p> <p>4. Measurement: Perimeter, area and time</p> <p>a. Measure and calculate the perimeter of composite rectilinear shapes in cm and m.</p> <p>b. Calculate and compare the area of rectangles (including squares), and including using standard units, cm², m² estimate the area of</p>	<p>the other and write mathematical statements >1 as a mixed number [for example $2/5 + 1/5 = 6/5 = 1 \frac{1}{5}$].</p> <p>d. Add and subtract fractions with the same denominator and denominators that are multiples of the same number.</p> <p>3. Number: Decimals and percentages</p> <p>a. Read, write, order and compare numbers with up to three decimal places.</p> <p>b. Recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents.</p> <p>c. Round decimals with two decimal places to the nearest whole number and to one decimal place.</p> <p>d. Solve problems involving number up to three decimal places. Recognise the percent symbol (%) and understand that per cent relates to 'number of parts per hundred', and write percentages as a fraction with denominator 100, and as a decimal.</p> <p>b. Solve problems which require knowing percentage and decimal equivalents of $\frac{1}{2}$, $\frac{1}{4}$, $\frac{1}{5}$, $\frac{2}{5}$, $\frac{4}{5}$ and those fractions with a denominator of a multiple of 10 or 25.</p>	<p>3. Geometry: Positions and directions</p> <p>a. Identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed.</p> <p>4. Measurement: Converting units</p> <p>a. Convert between different units of metric measure [for example, km and m; cm and m; cm and mm; g and kg; l and ml].</p> <p>b. Understand and use approximate equivalences between metric units and common imperial units such as inches, pounds and pints.</p> <p>c. Solve problems involving converting between units of time.</p> <p>5. Measurement: volume</p> <p>a. Estimate volume [for example using 1cm³ blocks to build cuboids (including cubes)] and capacity [for example, using water].</p> <p>b. Use all four operations to solve problems involving measure.</p> <p>6. Plan, Review and Assess</p>
--	--	--	---

	<p>irregular shapes.</p> <p>c. Read, write and convert time between analogue and digital 12- and 24-hour clocks.</p> <p>d. Solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days.</p> <p>5. Statistics</p> <p>a. Solve comparison, sum and difference problems using information presented in a line graph.</p> <p>b. Complete, read and interpret information in tables including timetables.</p> <p>6. Plan, Review and Assess</p>	<p>4. Measurement: money</p> <p>a. Estimate, compare and calculate different measures, including money in pounds and pence.</p> <p>b. Solve simple measure and money problems involving fractions and decimals to two decimal places.</p> <p>5. Plan, Review and Assess</p>

	Autumn Term	Spring Term	Summer Term
Year 6	<p>1. Number: Place Value</p> <ul style="list-style-type: none"> a. Read, write, order and compare numbers up to 10,000,000 and determine the value of each digit. b. Round any whole number to a required degree of accuracy. c. Use negative numbers in context, and calculate intervals across zero. d. Solve number and practical problems that involve all of the above. 	<p>1. Number: Ratio</p> <ul style="list-style-type: none"> a. Solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication and division facts. b. Solve problems involving similar shapes where the scale factor is known or can be found. c. Solve problems involving unequal sharing and grouping using knowledge 	<p>1. Investigations</p> <p>2. Fractions</p> <ul style="list-style-type: none"> a. Use common factors to simplify fractions; use common multiples to express fractions in the same denomination. b. Compare and order fractions, including fractions > 1 c. Generate and describe linear number sequences (with fractions) d. Add and subtract fractions with different

	<p>2. Number: (4 operations) Addition, subtraction, multiplication and division</p> <ol style="list-style-type: none"> Solve addition and subtraction multi step problems in contexts, deciding which operations and methods to use and why. Multiply multi-digit number up to 4 digits by a 2-digit number using the formal written method of long multiplication. Divide numbers up to 4 digits by a 2-digit whole number using the formal written method of long division, and interpret remainders as whole number remainders, fractions, or by rounding as appropriate for the context. Divide numbers up to 4 digits by a 2-digit number using the formal written method of short division, interpreting remainders according to the context. Perform mental calculations, including with mixed operations and large numbers. Identify common factors, common multiples and prime numbers. Use their knowledge of the order of operations to carry out calculations involving the four operations. Solve problems involving addition, subtraction, multiplication and division. Use estimation to check answers to calculations and determine in the context of a 	<p>of fractions and multiples.</p> <p>2. Measurement: Perimeter, area and volume</p> <ol style="list-style-type: none"> Recognise that shapes with the same areas can have different perimeters and vice versa. Recognise when it is possible to use formulae for area and volume of shapes. Calculate the area of parallelograms and triangles. Calculate, estimate and compare volume of cubes and cuboids using standard units, including cm³, m³ and extending to other units (mm³, km³). <p>3. Measures: Converting Units</p> <ol style="list-style-type: none"> Solve problems involving the calculation and conversion of units of measure, using decimal notation up to three decimal places where appropriate. Use, read, write and convert between standard units, converting measurements of length, mass, volume and time from a smaller unit of measure to a larger unit, and vice versa, using decimal notation to up to 3dp. Convert between miles and kilometres. <p>4. Statistics</p> <ol style="list-style-type: none"> Illustrate and name parts of circles, including radius, diameter and 	<p>denominations and mixed numbers, using the concept of equivalent fractions.</p> <ol style="list-style-type: none"> Multiply simple pairs of proper fractions, writing the answer in its simplest form [for example $\frac{1}{2} \times \frac{1}{4} = \frac{1}{8}$]. Divide proper fractions by whole numbers [for example $\frac{1}{3} \div 2 = \frac{1}{6}$]. Associate a fraction with division and calculate decimal fraction equivalents [for example, 0.375] for a simple fraction [for example $\frac{3}{8}$]. Recall and use equivalences between simple fractions, decimals and percentages, including in different contexts. <p>3. Number: Algebra</p> <ol style="list-style-type: none"> Use simple formulae. Generate and describe linear number sequences. Express missing number problems algebraically. Find pairs of numbers that satisfy an equation with two unknowns. Enumerate possibilities of combinations of two variables. <p>4. Number: Decimals</p> <ol style="list-style-type: none"> Identify the value of each digit in numbers given to 3 decimal places and multiply numbers by 10, 100 and 1,000 giving answers up to 3 decimal places. Multiply one-digit numbers with up to 2 decimal places by whole numbers.

Wykeham Primary School
Maths Curriculum Overview 2018-2019

**Mathematics scheme of work adapted from White Rose Maths and Teaching for Mastery - National Centre for Excellence in the Teaching of Mathematics (NCETM).
Includes the use of Bar Model of teaching and learning (where applicable) - Shenghan Maths.**
