

We believe that the learning journey is a lifelong experience and we aim to enable all children to make sense of their learning and be equipped for our ever changing world by encouraging a passion for learning, fostering curiosity and nurturing creativity.

We recognise our responsibility to instil in our children the values and skills they will need for life in modern Britain, and spiritual, moral, social and cultural development underpins all of our learning.

We have created an exciting and stimulating set of topics, to cover the Early Years Foundation Stage Curriculum, providing cross-curricular opportunities to extend and apply learning into other areas wherever possible. In all of our lessons, we encourage children to develop as independent and active learners and we nurture enquiry.

For more information about our curriculum either read the current terms topic information on the class page of our website or come in and talk to your child's teacher or Mr Wilson, the Head Teacher.

Topic Working Titles

Term 1	Amazing Me
Term 2	Sing a Rainbow
