

8 October 2018

Dear Parent / Carer

The Parent Mail APP

As you will be aware school communicate home in a number of ways, including Text Messaging, Letter, Twitter and The School Website.

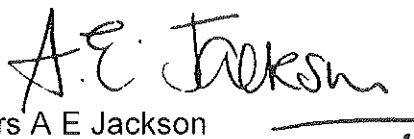

We are hoping to expand our communication portfolio by using the Parent Mail APP. There has unfortunately been some delay in 'rolling' this out due to some technical difficulties at Parent Mail.

To make this process as easy as possible for parents and carers to sign up to and use please complete the attached form.

Parent Mail will be made available to the email addresses you include, and these e mail addresses will be added to the school data base.

You will be informed when the system is available for you to use. When the system goes live you will be able to download the APP for free from either the Apple APP store or the Google Play Store.

Yours sincerely

Mrs A E Jackson
