Dates of payments into school vary with the first payment being between November to February and the second payment being in June. As a result, we have altered our reports to reflect funds received in the financial year that are available to spend in the academic year 2017/18 as well as new requirements to publish a report on the impact of spending in April. An interim report was published in April 2018. This is the final report for the 2017-18 funding.

Nature of support 2017/18

The Sports Funding Grant was used to support teaching and learning in the following ways:

To improve the teaching and learning of P.E. across the school through:

Use of specialist coaches during curriculum time and for extra-curricular activities;

Staff training and associated supply cover;

Improving resources and schemes of work;

To raise self-esteem, improve confidence and develop social skills through providing opportunities to access enrichment activities.

Use of technology to provide further 1:1 and small group coaching via Youteachme

Widening provision for self and peer assessment to improve skills via the use of technology

To broaden learners experience of a broader range of sports

To support the PE Coordinator through PLT days and Coach expertise to ensure high quality sports provision is available for all children.

Sustainability

We aim to make improvements in the teaching and learning of P.E and sports sustainable by improving the skills and knowledge of staff so that they have the confidence and expertise to deliver high quality lessons. This we will do through CPD opportunities as well as coaching and mentoring through the NWLSSP coaches.

For pupils we aim to provide them with the skills and positive attitude that encourages their continued participation in sports as they grow and develop.

A further aim is to improve resources that will have a long term impact and particularly provide more space and opportunities for pupils to be involved in physical active learning. As a consequence the school is using sports funding to provide a multi-use sports area to enable pupils to be involved in outdoor physical activity on a daily basis throughout the year.

Coach working in tandem with staff to deliver PE lessons	<p>-Staff continue to report that pupils are more active and show enjoyment during PE lessons.</p> <p>-Staff have been able to reflect on their professional development needs and have developed a positive relationship with the coach.
