

Literacy – The Diary of Killer Cat by Anne Fine

Literacy activities will be based on the novel. We will start the term with recounts and diaries writing in the 1st and 3rd person. We will then write a narrative story by expanding sentences and then write explanation text. We will also be using our evaluation and editing skills to improve our work even further! Children will continue to improve their proof-reading skills to correct errors in their work for spelling, punctuation, grammar and sense in writing.

Science

Animals including Humans

Children will:

- Identify that animals, including humans, need the right types and amounts of nutrition; that they cannot make their own food and they get nutrition from what they eat.
- Identify that humans and some animals have skeletons and muscles for support, protection and movement.

Forces and magnets

Children will:

- Describe magnets having two poles.
- Predict whether magnets will repel or attract
- Identify how objects move on different surfaces.

RE/PSHE

This term in RE we will be looking at:

- How do Hindus worship at home?
- What is advent?

Computing

- To be able to code.
- To understand the need for safe internet use.

Year 3 Autumn Term

PE

- Gymnastics
- Dance

DT

Roman gaming pouch – learn various types of stitching, finishing, designs and fabrics.

Art

- Drawing
- Sculpture
- Collage/Textiles (mosaic tiles)

Numeracy

Place Value: Identify, represent and estimate numbers using different representations. Find 10 or 100 more or less than a given number. Recognise the place value of each digit in a three digit number. Compare and order numbers to 1000. Read and write numbers to 1000 in numerals and words. Solve number problems.

Addition and Subtraction Add and subtract numbers mentally, including: a three-digit and ones; a three-digit number and tens; a three digit number and hundreds. Add and subtract numbers with up to three digits, using formal written methods of columnar addition and subtraction. Estimate the answer to a calculation and use inverse operations to check answers. Solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction.

Multiplication and division Count from 0 in multiples of 4, 8, 50 and 100 Recall and use multiplication and division facts for the 3, 4 and 8 multiplication tables. Write and calculate mathematical statements for multiplication and division using the multiplication tables they know, including for two-digit numbers times one-digit numbers, using mental and progressing to formal written methods. Solve problems, including missing number problems, involving multiplication and division. Count from 0 in multiples of 4, 8, 50 and 100.

History:

Ancient Egypt

Children will:

- compare the different periods and understand the different features of this period in history
- Place events on a time line (using dates)
- Understand changes in the world over this time period.

Geography – Capital Cities

Children will be able to:

- Contrast other areas in the UK with their home town and discuss similarities and differences.
- Understand how some of these aspects have changed over time.
