

Newsletter 18/19-2

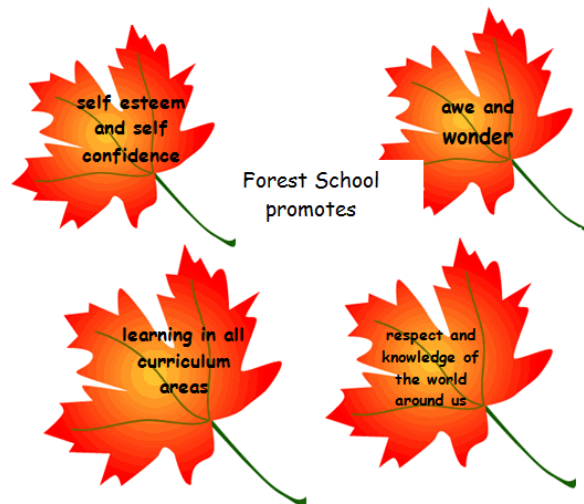

Do you have any spare time in which you would like to come and listen to children read in school? We all know how important reading is to all aspects of the curriculum and how much fun it can be to immerse ourselves in a good book.

Class teachers will explain what they would like you to do and you would have to complete a DBS application, which we need for our safeguarding measures to keep the children safe, this can be done online but we would give you guidance if you would like us to so.

Just a reminder - no fizzy drinks in packed lunches please.

FOREST SCHOOL

Next week we will be starting forest school sessions led by Jane Austen-Walker of Groundwork NorthEast. These have been funded, along with our new log circle, through the Tesco community project grant we received before Easter. All the children will be involved over the next few weeks and all the sessions will be on the school site. Please make sure your child has a warm coat in school, all these sessions will be outside.

Year 4 children will be visiting St. Cuthbert's School on Thursday to begin the programme of preparation for the Kielder trip next summer term. Next Thursday we will be playing games, singing and treasure hunting together. Children will need to bring a packed lunch on that day. In the summer term children from St. Cuthbert's, Ford, Norham and Scremerston first schools go on a 3 day residential trip to Kielder, more details as the year progresses.

Advance notice, we will be holding a SAFETY day for the children on October 1st. We have invited some of the emergency services to come and tell the children about the jobs they do. Should be really informative and lots of fun.

If your child is bringing money into school, could they please either bring it in a named purse or a named envelope. All dinner money should be paid for at the beginning of each week.
