

# Year 2

## Weekly News

Autumn Term

Week 6

Friday 12th Oct 2018

### Spellings

Spelling is a key focus in the class at the moment. Please make sure that you work on them at home, especially the **blue** words which are words picked up the child's writing.

### Writing

The children have been working hard on planning and writing their diary entries, imagining that they were there at the Great Fire of London. They have really enjoyed using their imaginations (including acting it out!) and developing descriptive language.

### Science

We have been using our knowledge of materials and their properties to look at buildings before and after the Great Fire of London. We have used vocabulary such as transparent, flexible and flammable.

### Other Information

There has been a growth of children bringing toys into school for playtimes. We have decided that no toys should be brought into school. This includes notebooks and pens. Thank you in advance for your support.

### Maths

We have been practising mental calculations, including counting in 2s and 10s. This is a skill we will revisit to develop the children's confidence.

### Reminders

Next week is parents' evening. Make sure you have signed up for an appointment.
