## Use of School Internet Agreement 2018/19

All pupils are responsible for their own behaviour on the internet. This agreement is to be read through by pupil and parent/carer, signed, and returned to school. Access to the Internet at school is dependent upon this signed agreement being returned to school.

I agree that:

- I will seek permission from the teacher before accessing the internet and will behave in a responsible manner whilst using it. This includes materials I choose to access, and language I use.
- I will not deliberately seek out offensive materials. In the unlikely event I should encounter any such material; I will report it immediately to a teacher.
- I will not access any social networking sites or participate in Instant Messaging.
- I will not access the control panel to change any of the settings or screensavers on the computers or laptops.
- I understand that computers are only for school or homework use unless permission has been granted otherwise; for example at wet break times.
- I will only use e-mail under teacher guidance and I will not give out personal information such as phone numbers and addresses;
- Accessing other people's files or work is not allowed unless permission has been given.
- No program files should be downloaded from the Internet.
- I will seek approval from the teacher before using memory pens or other data storage devices that have been brought in from home.
- I will seek permission from the teacher before printing any documents.
