

### Topic

This week we have really enjoyed learning about the fire service. We looked at the equipment that the firefighters had in the past and compared it to the modern fire brigade.

### Writing

Last week's diary entries about the Great Fire were fantastic! I love how the children followed their plans carefully to keep the events in order. Now we need to work on adding in the descriptive vocabulary to make our writing more exciting!

### Science

We have planned a science investigation into which materials are most waterproof. The children have been writing predictions using their scientific vocabulary. I hope we don't get too wet doing the investigation!

### Reminders

All home learning is due by **Tuesday 23rd October**. Remember to return your library books every Friday. The same book can be re-issued if you want to keep reading it!

### Other Information

Thank you to Claire Spake (Olly's mum) for volunteering to be the year 2 parent focus group representative.

It has been lovely meeting with all of you in our Parent Consultations this week. I hope you found our conversations useful.
