

CrossCountry Event 2018

On the 01/11/2018 24 children from our school got chosen to represent our school in the cross country race. Once we got to our school we had to go to the maths cave to put on

StAugustines tops. At around 9:25 we headed out to go to our bus, at this point everyone thought the race is going to get cancelled because of the weather but we got in our bus

and headed off to pick another school up. It took us around 25 minutes to get to the cross country track and when we did it was really wet, muddy and rainy. We found a spot under

a large tree and put our stuff down. For the Y5 and 6 race it is 1.6km and for the Y3 and 4 race it is 1.2km. After about 20 minutes of waiting the Y6 girls got called up to go to

the starting line and the cross country started. The races went down from oldest to youngest (Y6 to Y3). Pretty much everyone was nervous before their race but nobody didn't run

or DNF. Once the girls race has finished the Y6 boys started to warm up. The cross country was just outside Taveram Hall. Our school was really lucky because not only did we have one

of the best spots but we could also go and sit in a bus where it was nice and dry. The day went on really quickly and before you know it you were at the starting line ready to run.

Once you had finished your race you were given a hot water bottle to keep warm. After the Y3 boys have finished their race we didn't do the presentations because it was too wet and rainy.

Our school had 6 people who got into the finals. Once the races were over we started to head back to our bus. We were one of the last schools to leave but when we did we were all proud

of what we had done today. When we got back to school we laid our stuff down and went into the computer room to relax and play some games. The entire day was really fun and exhausting.

A big thank you should go to the adults and for the parents who came for giving up a day to stand in the wet and freezing weather.
