

Thursday 1st November

Mr. Leake will be running a Robotics Club for this half term, which is open to Class 4 children. The club will involve:

- Building a robot.
- Operating a robot with a control pad.
- Programming a robot using a computer.

Pupils who commit to the club for the next 6 weeks, and who show a willingness to participate and learn at the club, may be chosen to be part of a team that will compete in a Robotics Challenge in January. This will be held at the Nissan Factory in Sunderland. If the children do well at this competition they could qualify for the National Finals (Telford) and even the World Finals.

Please be aware that there is a limit on the number in a robotics competition team, therefore there will be some children who attend the club that will not be chosen for the competition. However, they still have a role to play in planning and preparing the robot, as well as experiencing this interesting part of the computing curriculum. Starting Thursday 8th November 3:15 – 4pm

Class 4 Robotics Club 2018

My child would like a place in the Robotics Club starting Thursday 8th November 2018.

- My child will be collected from the Main Entrance at 4:00pm each week.
- I give permission for my child to walk home alone at 4:00pm each week.
