Dear Parents,

We hope you enjoyed the half term holiday, it has been lovely catching up with the children and they have enjoyed telling us about their holiday.

The children have had their first experience of a 'Dough Disco' this week - doing hand and finger exercises with playdough to music. Hopefully they can tell you about it! In Maths, we have been practising recognising the pattern of dots on the faces of dice without needing to count the dots each time (subitising). It would be great if you could play a dice game at home to support with this skill.

Next week

In Phonics we will be focusing on the letter sounds h,b,f,l. It would be helpful if you could look at these sounds in your child's phonics pack helping them learn the action and recognise the letter. In Maths next week we will be describing, continuing and creating simple repeated patterns.

We hope the children have enjoyed bringing home and sharing their reading books - please ensure your child's reading book is brought to school in their book bag every day as your child may be read with on any day of the week.

Outdoor Learning

The children have enjoyed their first Outdoor Learning day today! Don't forget, every Friday children need to come to school in their own 'old' clothes with a coat and a named carrier bag containing named wellies and any waterproof clothing you may have.

Help in class

Now the children have settled into school, we would be grateful for parental help each week - particularly with hearing children read. If you are able to volunteer, please do come and see one of the team!

Café Time

Just a reminder about Café time - we really do appreciate your donations to ensure we can provide a varied and interesting menu each week. We suggest 50p a week, £3 per half term or £6 a term. Many thanks in advance

Have a lovely weekend.
